

Introducing The Most Hygienic Baby Changing Station with Ionizer Technology and BioCote® Antimicrobial Additive

Saniflow Corp. introduces BabyMedi® diaper changing stations, integrating Ion tech & BioCote® for superior hygiene in high-traffic areas.

UNITED STATES, February 26, 2024 /EINPresswire.com/ -- [Saniflow](#) Corp., a leader in hand dryer and baby changing station technology, is thrilled to unveil its latest innovation, BabyMedi® diaper changing stations. These cutting-edge stations incorporate Ion hygienic technology, emitting negatively charged particles to effectively neutralize viruses and bacteria on exposed surfaces. Proven highly effective in reducing the spread of harmful microorganisms, the stations also integrate BioCote antimicrobial additive, minimizing the growth of bacteria and fungi for added protection.

Amidst the rising demand for hygienic and convenient baby changing facilities, Saniflow Corp. recognized the necessity for a product that not only meets these standards but also offers durability for high-traffic areas.

Engineered with this in mind, the BabyMedi® diaper changing stations provide a superior solution for public spaces such as shopping centers, airports, and entertainment facilities. Designed to ensure safety and cleanliness, BabyMedi® stations are crafted from premium materials, easy to clean and maintain, reducing the risk of bacterial contamination. Featuring a

built-in safety strap and spacious design to accommodate babies of all sizes, these stations are built to withstand heavy usage, offering a cost-effective solution for businesses. Jaime Visa, CEO of Saniflow Corp., expressed enthusiasm for the launch, stating, "We understand the importance of providing safe and clean facilities for families, and our new product delivers just that.

With its durability and strength, we are confident that it will be the go-to choice for high-traffic public spaces."

Committed to innovation and quality, Saniflow Corp. continues to raise the bar for safe and clean public spaces with the introduction of BabyMedi® diaper changing stations. For more information, visit their website or contact their customer service team.

Babymedi Baby Changing Station Open with Ionizer

In conclusion, BabyMedi® diaper changing stations set a new standard for businesses seeking to create a safe and hygienic environment for families. With their exceptional features and durability, they are the optimal solution for high-traffic facilities. Saniflow Corp. is proud to offer this groundbreaking product and anticipates its widespread adoption in public spaces nationwide.
