cutting edge, innovative features to an affordable user-friendly interface, promising to streamline operations and empower businesses with fully customizable ticketing websites.

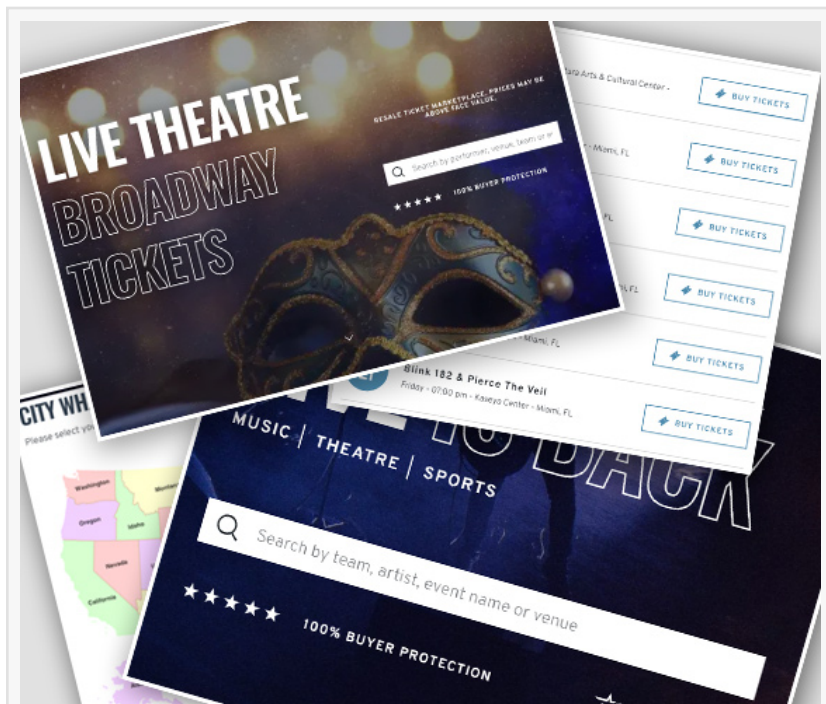

Ticket Website proudly announces the launch of ticketwebsite.com, a radically innovative white label ticket website for the secondary ticketing marketing industry. Ticket Website offers ground breaking simple software solutions to increase ticketing sales through search engine optimization. While enabling businesses to easily setup and manage their own secondary ticket marketplace, without complicated technical and inventory integrations.

For years, ATBS (also known as TicketCMS) has been the sole provider of white-label ticket website software, leaving customers yearning for alternatives that can offer enhanced features, better pricing, and more responsive customer service. Ticket Website's entry into the market addresses these gaps head-on, offering a superior search engine optimized solution that caters to the evolving secondary ticket market.

TicketWebsite.com is the result of over a decade of industry-led extensive research and development, aimed at the ticket affiliate and secondary ticketing industry. It sets a new standard for private label websites, offering advanced features, bespoke customization and intuitive functionality. Designed for optimal conversion rates and advanced search engine optimizations: our affordable platform empowers businesses to create bespoke ticketing websites quickly and easily.

Key features of TicketWebsite.com include:

1. Unrivalled search engine optimization: Complete management of the most important SEO elements of your websites, that instantly gives you the edge over your competition.
2. Seamless integration: Effortlessly integrate your website with your chosen industry leading ticketing partner. Such as [TicketNetwork](#) or [Ticket Squeeze](#), with zero technical knowledge required.
3. Intuitive user interface: Easy content management with full customization of your websites content, inventory, users and design.
4. Scalability: Suitable for small niche ticket resellers all the way up to global ticket sellers. Ticket Website offers integration with listing pages for over 70,000 performers, 30,000 venues and 100,000+ events.

Example websites

Ticket Website offers the ticket resellers a platform with dedicated hosting, responsive customer support, the most advanced SEO settings, ticket inventory and customization options at a fraction of the cost of other software solutions. Ticket Website is well-positioned to become the go-to choice for secondary market ticket sellers.

TicketWebsite.com is available now, and for a limited time at a fraction of the cost of other private label ticket website software solutions. To learn more and instantly set up your own ticketing website visit www.ticketwebsite.com.

About Ticket Website:

Ticket Website offers businesses the cutting-edge turn-key ticketing websites for the secondary ticket market. TicketWebsite.com aims to transform the ticketing industry by providing a superior alternative to traditional ticketing software systems.
