

IEP Engage celebrates 8 million users and rave reviews from international organizations

USA, February 26, 2024

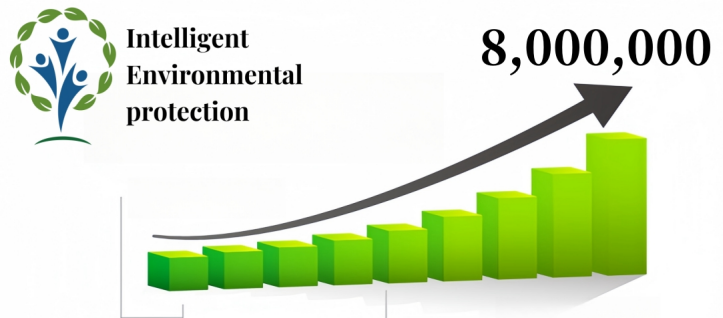

[/EINPresswire.com/](https://EINPresswire.com/) -- [IEP Engage](#), the world's leading environmental protection platform, has more than 8 million registered users worldwide. This achievement demonstrates the platform's effectiveness in engaging individuals and organizations to take action towards a more sustainable future. In addition, [IEP Engage](#) has been recognized and praised by multiple international organizations such as IUCN, GEF, NRDC, UNEP, TNC, etc. for its impactful work.

IEP Engage has been dedicated to raising environmental awareness and encouraging individuals and organizations to take concrete steps to protect the planet. With its user-friendly interface and diverse functionality, the platform has successfully attracted a large and diverse user base, including individuals, businesses and international environmental organizations.

The milestone of surpassing 8 million registered users worldwide is a major achievement for IEP Engage. It reflects growing global concern about environmental issues and the growing number of people actively seeking ways to make a positive impact. This

IEP Engage

The number of IEP Engage users worldwide has exceeded 8 million.

IEP Engage

IEP Engage (Intelligent Environmental protection Limited) was established on May 29, 2009. Since its establishment, it has been committed to promoting environmental protection. IEP has more than 8 million supporters around the world and a network of participating projects in more than 30 countries.

IEP Engage is dedicated to helping the world focus on the most pressing environmental and development issues, and find effective nature-based solutions for it. Its primary mission is to influence, encourage and assist scientists and societies around the world to protect the integrity and diversity of natural resources. Including saving endangered plant and animal species. Establish national parks and nature reserves. Assess the conservation status of species and ecosystems, etc. and ensuring that any use of natural resources is balanced. In an ecological sense, all efforts to sustainably protect the world's biodiversity and the living environment of organisms are to reduce human impact on these organisms and their living environment.

IEP Engage has invested in more than 1,300 projects in more than 30 countries, with a total capital of nearly US\$3 billion. IEP has nearly 600 projects in operation at any time.

Most of these projects are based on local issues. Projects range from gardens in Zambian schools to initiatives printed on the packaging of items in your local supermarket, from the restoration of orangutan habitats to the creation of ancient tree reserves.

IEP Engage1

milestone also highlights the effectiveness of IEP Engage in mobilizing individuals and organizations to engage in environmental protection efforts.

In addition to its growing user base, IEP Engage has also received praise and recognition from multiple international organizations such as IUCN, GEF, NRDC, UNEP, TNC, etc. The platform was praised for its innovative approach to promoting environmental sustainability and its efforts to create a global community of environmentally conscious individuals and organizations. This recognition further solidifies IEP Engage's position as a leader in environmental protection.

With over 8 million registered users and support from international organizations, IEP Engage is expected to continue to have a significant impact in combating climate change and environmental degradation. The platform remains committed to its mission of creating a more sustainable world and invites individuals and organizations to join the movement towards a green future.
