

Wiseland Inc. Levels the Playing Field for Nonprofits with Open-Source Analytics

Wiseland Inc., a tech company specializing in edtech and healthtech, has launched a new open-source analytics software designed specifically for nonprofits.

SAN JOSE, CALIFORNIA, UNITED STATES OF AMERICA, March 1, 2024 /EINPresswire.com/ --

We're passionate about giving nonprofits the same data-driven advantages as large corporations"

Ms. Nadkarni CEO Wiseland Inc.

Wiseland Inc., a leader in AI-powered edtech and healthtech solutions, today released its groundbreaking open-source analytics software tailored for nonprofits. This powerful tool, built in collaboration with AI visionary Akshar Prabhu Desai, empowers nonprofits to make data-driven decisions, optimize resource usage, and demonstrate their impact.

Democratizing Data for the Greater Good

Wiseland's software removes the financial barriers to sophisticated analytics that many nonprofits face. By utilizing open-source technology, nonprofits of all sizes can now:

- * Track and visualize key performance metrics with customizable dashboards
- * Gain deeper insights into donor bases and program effectiveness through advanced segmentation
- * Anticipate trends and make proactive decisions with predictive analytics

Real-World Success with IndicForum.org

"Wiseland's software has been key in refining our program delivery and maximizing our impact," said Siddhesh of IndicForum.org, a nonprofit focused on diversity and inclusion. "The data insights have helped us demonstrate our value to funders and improve our services."

Commitment to Empowering Nonprofits

"We're passionate about giving nonprofits the same data-driven advantages as large corporations," said Ms. Nadkarni, CEO of Wiseland Inc. "Our open-source software, created with the expertise of Akshar Prabhu Desai, gives nonprofits the tools they need to drive meaningful change."

Availability and Pricing:

Wiseland's new analytics software is available now for non-profit organizations. A free trial and tiered pricing options are available to accommodate the needs of organizations of all sizes.
