

iPostal1 Launches 'Create and Send Mail', Another Innovative Feature for Digital Mail

MONTEBELLO, NY, USA, February 28, 2024 /EINPresswire.com/ -- [iPostal1](https://www.ipostal1.com/), the leading provider of digital mailbox services, is proud to announce the launch of its groundbreaking "Create and Send Mail" service, marking a significant milestone for the digital mail experience.

This innovative offering brings hybrid mail to iPostal1 customers, allowing them to seamlessly create digital letters, invoices, postcards, holiday greetings, or other mail items within their digital mailbox, which are then sent out via traditional mail to as many recipients as they choose. iPostal1 customers will save time by not having to print, stuff, stamp, or run to the post office.

“

We digitized physical mail, and now we are fulfilling our vision of creating the complete digital mailbox by reversing the process - with the ability to create physical mail out of digital documents.”

Jeff Milgram

Hybrid mail refers to a leading-edge concept that combines the convenience of digital communication with the reliability and tangibility of physical mail. With iPostal1's "Create and Send Mail" service, private individuals and small businesses can now enjoy the best of both worlds, by composing their messages digitally and having them delivered via regular mail to any desired address, whether it's to the other side of town or across the country.

"We are thrilled to introduce our 'Create and Send Mail' service, which represents a significant leap forward in digital mail solutions," said Jeff Milgram, iPostal1 CEO. "We have digitized physical mail for some time, and now we are fulfilling our vision of creating the complete digital mailbox by reversing the process and offering the ability to create physical mail out of digital documents. This is a new, flexible, and efficient way to communicate."

Key features of iPostal1's "Create and Send Mail" service include:

1. The ability to upload digital letters, postcards, or other mail items within the digital mailbox
