

Chryselys Welcomes New Chief Artificial Intelligence Officer

PALO ALTO, CA, USA, February 28, 2024

/EINPresswire.com/ -- [Chryselys](#), a

pharmaceutical data and analytics business consulting organization headquartered in Palo Alto, California, recently expanded its portfolio by incorporating state-of-the-art Gen AI solutions. In alignment with this strategic enhancement, Chryselys announced the appointment of Prakash

Karaka as the Chief Artificial Intelligence Officer. This addition to the leadership team will usher in a new era of innovation and excellence for Chryselys.

As Chief AI Officer, Prakash is a timely addition to Chryselys, given GenAI's revolutionary impact on the pharmaceutical industry, which is ripe for disruption to harness insights like never before."

Jason Carlin, CAO

As Chief AI Officer, Prakash will be a guide and a collaborator with ethics and governance in mind. He will focus on integrating AI and Generative AI technologies, steering Chryselys' vision towards harnessing vast datasets and yielding novel insights & solutions.

Jason Carlin, Chief Analytics Officer at Chryselys, said, "As Chief AI Officer, Prakash is a timely addition to Chryselys,

given GenAI's revolutionary impact on the pharmaceutical industry, which is ripe for disruption to harness insights like never before. Prakash's background and experience will greatly benefit Chryselys during this new growth phase. We are thrilled to have him join us on this journey to implement GenAI in all we do."

Prakash brings over 17 years of experience in engineering, AI, data analytics, and machine learning to the pharmaceutical management science field. His roles at Amazon, Microsoft, and Intel have been marked by significant contributions in areas ranging from cloud-based big data analytics to AI-driven retail and developer services. Prakash earned a Bachelor of Engineering in Electronics and Communications from Andhra University, India.

About Chryselys
