

Cellular M2M Market Detailed Industry Report Analysis 2024-2030: Huawei, Gemalto, Axeda

Stay up to date with Cellular M2M Market research offered by HTF MI. Check how key trends and emerging drivers are shaping this industry growth.

PUNE, MAHARASHTRA, INDIA, February 29, 2024 /EINPresswire.com/ --

HTF Market Intelligence published a new research document of 150+pages on "Cellular M2M Market Insights, to 2030" with self-explained Tables and charts in presentable format. In the Study you will find new evolving Trends, Drivers, Restraints, Opportunities generated by targeting

market associated stakeholders. The growth of the Cellular M2M market was mainly driven by the increasing R&D spending by leading and emerging player, however latest scenario and economic slowdown have changed complete market dynamics.

Cellular M2M Market

Cellular M2M

“

HTF Market Intelligence consulting is uniquely positioned empower and inspire with research and consulting services to empower businesses with growth strategies, by offering services.”

Some of the key players profiled in the study are Huawei (Japan), Alcatel-Lucent, Cisco(United States), Google (United States), Gemalto (Netherlands), Freescale Semiconductor, Intel (United States), IBM (United States), Axeda (United States), Infineon (India), Microchip (United States), Thales DIS (United States). Additionally, the following companies can also be profiled that are part of our coverage like Vodafone (United Kingdom), Ericsson (Sweden), Kore Wireless(United States).

According to HTF Market Intelligence, the Global Cellular M2M market to witness a CAGR of 18.6% during forecast

period of 2024-2030. Global Cellular M2M Market Breakdown by Application (Asset Tracking & Monitoring, Predictive Maintenance, Telemedicine, Fleet Management, Warehouse Management, Industrial Automation, Smart Meter) by Type (Software, Hardware) by End User (Automotive,

Consumer Electronics, Industrial Automation, Security Monitoring, Medical, Retail Industry) by Services (Connectivity Services, Professional Services, Managed Services) and by Geography (North America, South America, Europe, Asia Pacific, MEA). The report includes historic market data from 2019 to 2023E. Currently, market value is pegged at USD 12.8 Billion.

Definition:

The Cellular M2M (Machine-to-Machine) market refers to the segment of the telecommunications industry that focuses on facilitating communication between various devices or machines over cellular networks. In Cellular M2M communication, devices are equipped with embedded SIM cards or modules that enable them to connect to cellular networks and exchange data with each other or with central servers.

Market Trends:

- 5G Integration: Increasing integration of 5G technology into Cellular M2M solutions, enabling higher data speeds, lower latency, and support for a massive number of connected devices.
- Edge Computing: Growing adoption of edge computing capabilities to proc

Market Drivers:

- IoT Adoption: Increasing adoption of IoT solutions across industries, driving the demand for Cellular M2M connectivity to enable communication and data exchange between connected devices.

Market Opportunities:

- Smart Cities: Opportunities for Cellular M2M solutions in smart city initiatives, including traffic management, waste management, public safety, and environmental monitoring.
- Healthcare: Opportunities for remote patient monitoring, medical asset tracking,

The titled segments and sub-section of the market are illuminated below:

The Study Explore the Product Types of Cellular M2M Market: Software, Hardware

Key Applications/end-users of Cellular M2M Market: Asset Tracking & Monitoring, Predictive Maintenance, Telemedicine, Fleet Management, Warehouse Management, Industrial Automation, Smart Meter

With this report you will learn:

- Who the leading players are in Cellular M2M Market?
- What you should look for in a Cellular M2M
- What trends are driving the Market
- About the changing market behaviour over time with strategic view point to examine competition

Also included in the study are profiles of 15 Cellular M2M vendors, pricing charts, financial outlook, swot analysis, products specification & comparisons matrix with recommended steps for evaluating and determining latest product/service offering.

List of players profiled in this report: Huawei (Japan), Alcatel-Lucent, Cisco(United States), Google (United States), Gemalto (Netherlands), Freescale Semiconductor, Intel (United States), IBM (United States), Axeda (United States), Infineon (India), Microchip (United States), Thales DIS (United States). Additionally, the following companies can also be profiled that are part of our coverage like Vodafone (United Kingdom), Ericsson (Sweden), Kore Wireless(United States)

Who should get most benefit from this report insights?

- Anyone who are directly or indirectly involved in value chain cycle of this industry and needs to be up to speed on the key players and major trends in the market for Cellular M2M
- Marketers and agencies doing their due diligence in selecting a Cellular M2M for large and enterprise level organizations
- Analysts and vendors looking for current intelligence about this dynamic marketplace.
- Competition who would like to benchmark and correlate themselves with market position and standings in current scenario.
