

Geocomposites Market Size to Worth USD 1133.80 Million by 2029 | With a 12.8% CAGR by Exactitude Consultancy

Global Geocomposites Market include
-enCate Geosynthetics, Royal TenCate NV

LUTON, BEDFORDSHIRE, UNITED
KINGDOM, February 29, 2024

/EINPresswire.com/ -- The

"[Geocomposites](#) Market" Size, Scope,
and Forecast 2024-2030 report has
been added to the market research
collection of Research Reports. The
report offers an in-depth analysis of
the growth of the industry by
segmenting it by type and geography. It

provides an overview of the current market size and its forecast in terms of revenue and volume.

Industry experts and researchers have offered an authoritative and concise analysis of the Geocomposites Market with respect to various aspects such as growth Factors, challenges, Restraints, Developments, and Opportunities for growth. This report provides a pin-point

“

The geocomposites market
is driven by increasing
demand for erosion control,
drainage systems, and
environmental protection.”

exactitudeconsultancy

analysis of changing dynamics and emerging trends in the Geocomposites Market. The report also includes competitor and regional analysis and highlights the latest advancements in the market. Also this report analysis Porters five forces analysis, value chain analysis, SWOT analysis are some additional important parameters used for the analysis of market growth

The geocomposites market is expected to grow at 12.8%

CAGR from 2024 to 2030. It is expected to reach above USD 1133.80 Million By 2030 from USD 383.5 Million in 2023.

Top Key Players in Geocomposites Market:

TenCate Geosynthetics, Royal TenCate NV, GSE Environmental, Officine Maccaferri, Low & Bonar, Propex Global, Tensar International Corporation, Huesker Group, Thrace Group, NaA[®]tex Group AG.

Industry Development:

1 April, 2019; TenCate Geosynthetics Americas Announces the Launch of Industry Innovation: A Continuous Moisture Management System. Moisture is the enemy of roadway and civil structure durability. It accelerates the deterioration of assets and increases the financial loss and risk for everyone. Unchecked, the challenges brought about by moisture drain time, money and resources that could otherwise be used to fund new projects. In 2011, TenCate Geosynthetics initially launched Mirafi[®] H2Ri woven geotextiles into the market. Since then, research has been underway to further enhance this product and its uses. Mirafi[®] H2Ri is the only solution in the geosynthetic market that integrates the traditional reinforcement and stabilization functions with a continuous moisture management system that improves the longevity and sustainability of roadways and other civil structures such as parking lots, runways, truck courts and railroads

1 September 2022 The THRACE GROUP initiative, enhances networking and collaboration between brand owners, product manufacturers, consumers and authorities, designs closed/controlled loop recycling systems and upcycles plastic waste into new sustainable products with tangible benefits for the environment and the plastic's value supply chain. The first results are already extremely encouraging, since more than 40 Greek companies have joined "IN THE LOOP", proving that Greece can successfully move towards a circular economy model. Likewise, at EKO Acropolis Rally, which returns to the FIA World Rally Championship for the first time in eight years, IN THE LOOP will have a dynamic presence. With the support of Thrace Group, IN THE LOOP will collect plastic waste, coming directly from the event's operation, upcycle it and produce new sustainable products to cover the needs of the EKO Acropolis Rally, 2022.

If you require any specific information that is not covered currently within the scope of the report, we will provide the same as a part of the customization.

Segmentation of Geocomposites Market:

Key Market Segments: Geocomposites Market

Geocomposites Market By Product, 2020-2029, (USD Million), (Kilotons)

Geotextile – Geonet Composites

Geotextile – Geomembrane Composites

Geomembrane – Geogrid Composites

Geotextile – Geogrid Composites

Geocomposites Market By Function, 2020-2029, (USD Million), (Kilotons)

Separation

Drainage

Reinforcement

Geocomposites Market By Application, 2020-2029, (USD Million), (Kilotons)

Water & Wastewater Management

Road & Highway

Landfill & Mining

Soil Reinforcement

Geocomposites Market By Region, 2020-2029, (USD Million), (Kilotons)

North America

Asia Pacific

Europe

South America

Middle East And Africa

Important Countries In All Regions Are Covered.

Geocomposites Market, By Geography

The geocomposites market by region includes North America, Asia-Pacific (APAC), Europe, South America, and Middle East & Africa (MEA).

North America: includes the US, Canada, Mexico

Asia Pacific: includes China, Japan, South Korea, India, Australia, ASEAN, and Rest of APAC

Europe: includes UK, Germany, France, Italy, Spain, Russia, and Rest of Europe

South America: includes Brazil, Argentina, and Rest of South America

Middle East & Africa: includes Turkey, UAE, Saudi Arabia, South Africa, and Rest of MEA

Study Objectives of this report are:

To study and analyse the global s market size (value and volume) by company, key regions/countries, products and application forecast to 2030.

To understand the structure of Geocomposites market by identifying its various sub segments.

To share detailed information about the key factors influencing the growth of the market (growth potential, opportunities, drivers, industry-specific challenges and risks).

Focuses on the key global Geocomposites manufacturers, to define, describe and analyse the sales volume, value, market share, market competition landscape, SWOT analysis and development plans in next few years.

To analyse the Geocomposites with respect to individual growth trends, future prospects, and their contribution to the total market.

To project the value and volume of Geocomposites submarkets, with respect to key regions (along with their respective key countries).

To analyse competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

To strategically profile the key players and comprehensively analyse their growth strategies.

There are several compelling reasons to consider purchasing this report on the global Geocomposites Market:

Comprehensive Market Insights: The report provides a detailed and comprehensive analysis of the global Geocomposites Market, covering key trends, growth drivers, challenges, and opportunities. It offers valuable insights into market dynamics, enabling informed decision-making and strategic planning.

In-Depth Industry Analysis: The report delves into the competitive landscape, market segmentation, and key players' profiles. It presents a thorough assessment of the market's current and future potential, helping businesses identify potential partnerships, acquisitions, or

investment opportunities.

Market Size and Forecast: The report includes accurate market sizing and forecasting data, enabling businesses to gauge the market's growth potential and plan their investments accordingly. This data-driven approach assists in optimizing resource allocation and mitigating risks.

Emerging Trends and Innovations: By highlighting emerging trends and innovations in the Geocomposites Market, the report equips businesses with valuable foresight. Staying ahead of the curve on technological advancements and consumer preferences can offer a competitive edge.

Regional Analysis: The report examines the Geocomposites Market across different regions, providing a comprehensive understanding of regional dynamics and market variations. This information aids businesses in devising region-specific strategies and tapping into high-growth markets.

Regulatory Insights: With an analysis of relevant regulations and policies impacting the Geocomposites Market, the report helps businesses navigate compliance requirements and mitigate regulatory risks.
