Ascendant continues to lead the way in providing comprehensive and tailored recovery programs since its inception on August 15, 2018.

Ascendant Intensive Outpatient Program NYC

[Ascendant Intensive Outpatient Program NYC](#) underscores its capability to effectively address painkiller addiction through its established intensive outpatient rehabilitation (IOP) program. This program is designed to empower individuals to navigate the challenges of painkiller addiction while maintaining their daily routines and responsibilities.

Painkiller addiction, characterized by its potent physical and psychological grip, necessitates a nuanced and multifaceted approach to treatment. Ascendant's IOP program offers a holistic array of therapeutic interventions and evidence-based practices tailored to address the complexities of opioid dependence.

"Recognizing the profound impact of painkiller addiction on individuals and communities, we are dedicated to enhancing our management strategies within our existing intensive outpatient

program," stated Alex Contino, Director of Continuing Care at Ascendant Intensive Outpatient Program NYC. "Our goal is to provide individuals grappling with painkiller addiction the tools, support, and resources they need to embark on a journey of lasting recovery."

Ascendant's intensive outpatient rehabilitation program integrates a combination of group and individual therapy sessions, medication management, and flexible scheduling to support individuals in achieving sustained sobriety while navigating the demands of daily life.
