

The Nordlys™ Treatment is Now Available at the Arbutus Laser Centre for Aesthetic Medicine

Arbutus Laser Centre for Aesthetic Medicine is the only clinic in Vancouver with this innovative treatment technology

VANCOUVER, BRITISH COLUMBIA, CANADA, March 1, 2024

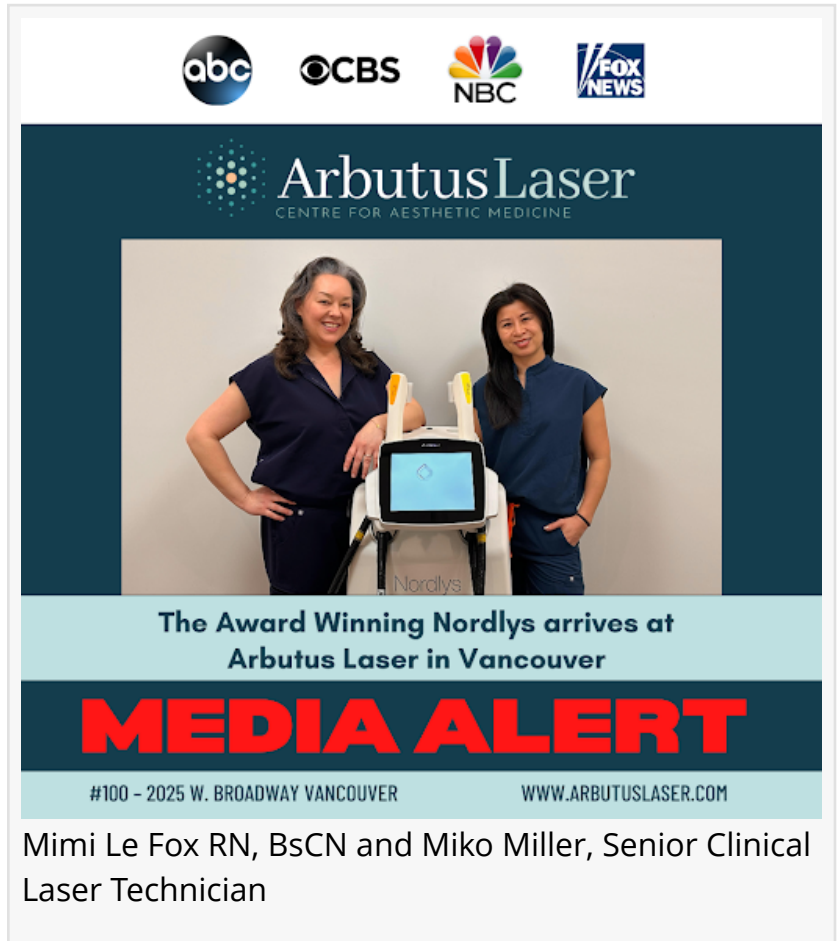

/EINPresswire.com/ -- The [Arbutus Laser Centre](#) introduced Vancouver to the first [IPL technology](#) in 1995. It has since become one of the most sought-after skin rejuvenating procedures available. The [Nordlys](#) system was named the 2022 Aesthetic Awards Device of the Year and has been featured on the Today Show on NBC. The Arbutus Laser Centre is the first clinic in Vancouver to incorporate this system into its state-of-the-art practice.

Nordlys has redefined the standards of excellence in this field of IPL

technology. It represents an evolution in this arena with its unique SWT IPL narrowband technology. The Nordlys offers unparalleled precision, efficacy, and safety in IPL treatments. Whether targeting pigmentation issues, or vascular lesions, Nordly delivers superior results that exceed expectations.

The evolution of Nordlys Narrow Band, Selective Wave technology ensures optimal outcomes with minimal discomfort and downtime. The customizable settings and targeted delivery system allow for precise treatment tailored to each individual's unique needs, making it the preferred choice among practitioners and patients.

During the treatment, a handheld device emitting pulses of light will be used to target specific skin concerns. There may be a mild sensation of warmth or a slight snapping feeling, but most patients find the treatment relatively painless. Each session can vary depending on the area

The graphic is a media alert for Arbutus Laser Centre. At the top, it features logos for ABC, CBS, NBC, and FOX NEWS. Below these is the Arbutus Laser logo with the tagline 'CENTRE FOR AESTHETIC MEDICINE'. The central image shows two women, Mimi Le Fox and Miko Miller, standing next to the Nordlys laser device. Below the image, the text reads 'The Award Winning Nordlys arrives at Arbutus Laser in Vancouver'. A large red 'MEDIA ALERT' banner is prominent. At the bottom, it provides the address '#100 - 2025 W. BROADWAY VANCOUVER' and the website 'WWW.ARBUTUSLASER.COM'. Below the graphic, the names 'Mimi Le Fox RN, BScN and Miko Miller, Senior Clinical Laser Technician' are listed.

We are proud to lead the way in IPL technology with the Nordlys."

Dr. Nicolas Eichhorst

being treated, but is typically quick and convenient, making it easy to fit into your schedule.

There is minimal to no downtime associated with Nordlys IPL treatments, allowing you to resume your daily activities immediately after treatment. There may be some redness or swelling which subsides within a few hours to a day.

"We are proud to lead the way in IPL technology with the Nordlys," said Dr. Nicolas Eichhorst, medical director at the Arbutus Laser Centre. The Nordlys system is more targeted and comfortable than other broadband light (BBL) treatment options. And, because of its gentle treatment approach, more than one treatment type can be done in a single session. "I know our patients will enjoy the proven results and greater comfort offered by the Nordlys system." Dr. Eichhorst said.

About the Arbutus Laser Centre

The Arbutus Laser Centre was one of the very first facilities of its kind (established in 1992) with a reputation for delivering many "firsts" in innovative technology. It is a multi-specialty facility that offers a full range of reliable services including skin resurfacing and rejuvenation, a full line of injectable products to soften lines/wrinkles and replace lost volume, tattoo removal, laser hair removal, and vein removal of the face and legs. Additionally, the Arbutus Laser Centre provides treatment for cherry hemangiomas, port wine stains, birthmarks, moles, skin tags, age spots/freckles, and therapies for mild to moderate bladder incontinence.

Dr. Eichhorst has been a pivotal figure within the Arbutus Laser Centre as its Medical Director since 2018. He brings a comprehensive approach to patients, focusing on optimal skin quality and holistic, natural results. He actively engages in lifelong learning, featuring extensive training in aesthetic medicine. He is a functional Medicine Advocate.
