MomMed Unveils 'LOVE MYSELF' Campaign in Honor of International Women's Day

International Women's Day serves as a global platform to honor the remarkable achievements of women across social, economic, cultural, and political realms. From championing human rights to breaking barriers in science, technology, and business, women continue to shape and

influence various aspects of society. Despite their dedication to personal and professional growth, many women find themselves struggling to allocate time for self-care amidst their demanding responsibilities.

“

We believe that self-love is the first step towards empowerment and fulfillment.”
