“

The demand for breast imaging is driven by the increasing incidence of breast cancer worldwide and the growing emphasis on early detection and diagnosis.”

Exactitude Consultancy

projections. The report also features an impact analysis of the market dynamics, highlighting the factors currently driving and limiting market growth, and the impact they could have on the short, medium, and long-term outlook. The main goal of the paper is to further illustrate how the latest scenario, the economic slowdown, and war events affect the market for Breast Imaging.

The global Skincare Market is anticipated to grow from USD 3.6 billion in 2020 Billion in 2023 to USD 6.76 billion by 2028 Billion by 2030, at a CAGR of 8.3% during the forecast

period. The increasing interest of the individuals in this industry is that the major reason for the expansion of this market.

The Top Key Players profiled in the report:

Koninklijke Philips N.V., GE Healthcare, Siemens Healthcare, Fujifilm Holdings Corporation, Hologic, Inc., Dilon Technologies, Inc.

Recent Development:

Royal Philips, a leading global health technology company listed on NYSE as PHG and AEX as PHIA, is placing patients and healthcare providers at the forefront during #RSNA23, the world's largest medical imaging conference. The company acknowledges the challenges faced by radiologists in improving departmental performance and enhancing patient care through optimized workflows, shorter procedure times, and user-friendly operations. Recognizing that 45% of radiologists report symptoms of burnout, Philips is dedicated to addressing these issues through innovative solutions in diagnostic imaging and enterprise informatics.

Technology Segment, 2019-2025, (in USD million)

Mammography (FFDM, Digital & 3D Mammography)

Molecular Breast Imaging (MBI)/Molecular Breast-Specific Gamma Imaging (BSGI)

PET-CT

Contrast-Enhanced Spectral Mammography (CESM)

Cone Beam Computed Tomography (CBCT)

Automated Breast Ultrasound (ABUS)

Breast MRI

Breast Thermography

Optical Imaging

Electrical Impedance Imaging (EIT)

End-User Segment, 2019-2025, (in USD million)

Hospitals & Clinics

Specialty Centers

Diagnostic Imaging Centers

Based on geography, the global market for Breast Imaging and Disruptions has been segmented as follows:

North America captured the largest market share of the global breast imaging market in 2019, followed by Europe and Asia-Pacific. The large share of this market is largely attributed to the well-established healthcare system, greater adoption of advanced technologies, and growing prevalence of breast cancer. However, emerging economies specifically in the Asia Pacific, South America are expected to witness a very high growth rate in the Breast Imaging market during the forecast period due to growing government focus on the healthcare sector, rising prevalence of breast tumor, increasing health insurance penetration, and female aging population in the region.

Strategic Points Covered in Breast Imaging Market Directory:

To study and analyze the global market size (value & volume) by company, key regions/countries, products and application, history data, and forecast to 2030.

To understand the structure of market by identifying its various sub segments.

To share detailed information about the key factors influencing the growth of the market (growth potential, opportunities, drivers, industry-specific challenges and risks).

Focuses on the key global manufacturers, to define, describe and analyze the sales volume, value, market share, market competition landscape, SWOT analysis and development plans in next few years.

To analyze the growth trends, future prospects, and their contribution to the total market.

To project the value and volume of submarkets, with respect to key regions (along with their respective key countries).

To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

To strategically profile the key players and comprehensively analyze their growth strategies.

The report provides insights on the following pointers:

Market Penetration: Comprehensive information on the product portfolios of the top players in the Breast Imaging

Product Development/Innovation: Detailed insights on the upcoming technologies, R&D activities, and product launches in the market.

Competitive Assessment: In-depth assessment of the Breast Imaging market strategies, geographic and business segments of the leading players in the market.

Market Development: Comprehensive information about emerging markets. This report analyzes the market for various segments across geographies.

Market Diversification: Exhaustive information about new products, untapped geographies, recent developments, and investments in the Breast Imaging
