Latin America (LA) – Brazil, Argentina, Peru, Chile & Rest of Latin America

The Middle East and Africa (MEA) – Saudi Arabia, UAE, Israel, South Africa

North America dominates the market for automatic dependent surveillance broadcast. This is partly attributable to the Federal Aviation Administration's (FAA) early deployment of ADS-B technology in the United States and Canada's extensive acceptance of the technology.

In the upcoming years, the Automatic Dependent Surveillance Broadcast (ADS-B) market is anticipated to grow at the quickest rate in the Asia-Pacific region. The desire for more effective air traffic management systems in the region is being driven by the expansion of air traffic, particularly in China and India. ADS-B technology is seen as a major component of these systems.

Also, a number of Asia-Pacific nations are making significant investments in aviation infrastructure, such as new airports, air traffic control systems, and aircraft, which is anticipated to increase demand for ADS-B products and services.

In addition, there are many military aircraft in the Asia-Pacific region, and numerous nations in the region are investing in modifications for their military aircraft that incorporate ADS-B technology.
