JD Supra's Readers' Choice Awards recognize top authors and firms who were read by C-suite executives, in-house counsel, law firms, media, investors and other professionals across the JD Supra platform during 2023.

This year, the awards recognize:

- authors for their visibility and thought leadership covering 31 key, cross-industry topics (10 authors per category)
- firms for their visibility and engagement in the 31 topics covered by the awards (one firm per category).

## Methodology

As the name suggests, the Readers' Choice Awards reflect a deep dive into JD Supra's 2023 reader data, where they studied total visibility and engagement among readers across many industries interested in certain defining topics of the day. JD Supra editors chose the 31 main topics covered in this year's Readers' Choice Awards for their timeliness as well as their proven, ongoing importance. In each category, they recognized ten authors and one firm for consistently highest readership and engagement within that category for all of 2023. In total, across all categories, JD Supra recognized the excellence and achievement of 303 authors selected from over 70,000 who publish their excellent work on their platform.

Along with a top firm in each category, JD Supra also featured additional reader data, including the top five most-read articles, popular related topics, total number of authors, and other category-specific information.

"We are honored to be recognized as the #1 Firm in eDiscovery by JD Supra's readers for a second year in a row," said Kaylee Walstad, chief strategy officer of EDRM. "This award is a reflection of the brilliant authors, podcast guests and webinar presenters and how their cutting-edge education and information has resonated with JD Supra's readers. The wonderful team at JD Supra made it so easy for us to share content and their support has been beyond white glove."
