*"RNTrust Empowers Innovation Through Interdata Middle East Acquisition"*

Our vision is to fully automate business and application processes through Coopera, an enterprise unified content service platform, that provides all the features and capabilities needed to drive digital transformation, empower effective teamwork, and deliver great experiences. Core services & features of Coopera includes document management, case management, record management, email management, process management and automation, project management, task management, intelligent data capture, and content analysis dashboards. The application suite has a scalable centralized BPM

engine that tracks progress and assigns activities to diverse participants, addressing critical automation needs such as transforming business processes and managing IT operations. The integrated Robotic Process Automation (RPA) module revolutionizes business operations by

enabling the manipulation of information and files, execution of various activities, and seamless communication with other systems to simplify processes, replace repetitive activities, and minimize human intervention.

"This acquisition accelerates our digital transformation expertise forward, establishing a leading one enterprise platform in line with 2030 regional vision."

"Strategic Interdata Middle East acquisition enforces RNTrust's focus on creating value and enhancing our Enterprise Information Management (EIM) offerings through strategic alliances."
