

Afforai Announces Partnership with Hatcher+ and Plug and Play Tech Center, Revolutionizing the Research Ecosystem

Afforai is honored to secure meaningful investments and partnerships to empower and simplify academic research.

AUSTIN, TX, UNITED STATES, March 4, 2024 /EINPresswire.com/ -- Austin, TX: [Afforai](#) proudly announces its inclusion in the prestigious Hatcher+ and Plug and Play Tech Center portfolios, marking a significant milestone in its journey to reinvent the research process. This [collaboration](#) highlights Afforai's commitment to harnessing the power of advanced AI to streamline the research lifecycle, offering researchers a comprehensive platform that enhances productivity and innovation.

“We are immensely proud to have Plug and Play as our partner on this journey. Their investment goes beyond financial support; the Plug and Play team has wholeheartedly embraced our vision, investing their time and effort to help us achieve our goal—making complex research simple,” shares Co-Founder and CEO of Afforai, Alec Nguyen.

Afforai, known for its advanced AI capabilities, specializes in sourcing, summarizing, and translating vast amounts of information efficiently. The platform is designed to support researchers at every step, from the start of an idea to the publication of findings. This partnership with Hatcher+, a leading data-driven venture capital firm, and Plug and Play Tech Center, a renowned global innovation platform, is a testament to Afforai's potential to transform the academic research landscape.

The need for Afforai's solution is essential as researchers spend approximately 23% of their work time reading publications. This partnership aims to significantly reduce this time, translating to substantial savings and more efficient resource utilization for academic institutions.

Alireza Masrour, General Partner in Investments at Plug and Play, expressed excitement about the investment, “We at Plug and Play are excited about Afforai not only because of the team but also for solving a big problem that all researchers have. Their traction shows the product demand, and we believe this is a great beginning to what the researchers have done for them to get to the mainstream, like the media content on social networks.”

Afforai's partnership with Hatcher+ and Plug and Play Tech Center is not just an investment; it's a

strategic alliance that promises to empower researchers worldwide.

About the Company:

[Co-founded](#) by CEO Alec Nguyen and CTO Hung Nguyen, Afforai began as a college project. After experiencing countless late nights pouring over lengthy research papers, Alec and Hung believed there had to be a way to navigate the never-ending amount of content more efficiently. This thought sparked the idea for Afforai, an AI research tool designed to reduce research time for readers. With a diverse team of engineers, designers, and marketers, Afforai has set out to revolutionize how people interact with knowledge. Afforai has refined algorithms, trained models, and tested prototypes to provide a tool that seamlessly integrates into users' lives, saving them precious time as they uncover hidden insights. Today, Afforai is used to empower knowledge-seekers across countless domains. Whether a student, business development representative, researcher, or programmer, Afforai can enhance productivity and make research more accessible, efficient, and rewarding.
