this detached pool house.

Winners of the PRO Remodeler of the Year Awards represent the best remodeling work in the Metro DC area. The Awards, judged by remodeling professionals outside of the area, are based on problem-solving, functionality, aesthetics, craftsmanship, innovation, and degree of difficulty.

When tasked with constructing a detached pool house and cabana, the Superior Construction Services team faced many challenges, including the need to match the decking on the pool patio and the brick of the main house. They also had to grapple with a lack of existing electrical, gas, and plumbing and the discovery of subgrade boulders during the excavation process. The team met the challenge of integrating the new pool house's decking with the existing pool patio by carefully selecting and installing 2 1/2" thick Italian limestone decking. They also meticulously chose bricks to ensure a consistent external appearance and create a unified architectural design that seamlessly blends the new structure with the existing property. As for the pool house's interior, the team installed a full wet bar, premium appliances, and custom cabinetry, along with state-of-the-art audiovisual systems.

Each year PRO Metro DC presents these coveted awards to members who have demonstrated outstanding craftsmanship, design, and professionalism through their remodeling projects. The entries of this year's competition totaled more than 40 million in remodeling investments, spanning mid-range and high-end projects, as diverse as newly built homes to Universal Design baths to kitchen remodeling projects.
