

RNG Is the Answer to O&G Production Budget Cuts

RNG Is Booming!

PENN VALLEY, PA, US, March 5, 2024 /EINPresswire.com/ -- The falling natural gas prices have resulted in significant production budgets cuts by a number of O&G companies. The field service companies are seeing their work reduced anywhere from 40% to 70%. In this era where it's hard to find workers, companies are faced with the challenge of finding work so they do not have to lay off some of their best workers.

Tom Gellrich, CEO
& Founder, H2-
CCS Network

The Answer Could Be [RNG](#)

Newly-released data from the American [Biogas](#) Council (ABC) indicates that 2023 was the third year of record growth across the U.S. biogas industry,[1] with nearly 100 new projects coming online last year— representing \$1.8 billion in capital investments. ABC expects this growth to continue into 2024, with more than 100 new projects already projected to go into operation this year.

“

Companies working O&G will find RNG a rapidly growing market that leverage their skill sets”

*Tom Gellrich, CEO and
Founder, H2-CCS Network*

In 2023, 96 new biogas projects became operational in the U.S., pushing the total number of active U.S. biogas projects to 2,251, which represents \$39 billion in capital investment.

Where to Learn About RNG Opportunities?

The [Appalachian RNG Conference](#) on April 18, 2024 at the Hilton Garden Inn at Southpointe/Pittsburgh could be provide answers for companies looking to expand into RNG. Companies working in the O&G industry can learn that about 89% of their O&G capabilities can be transferred to RNG.

“Companies working O&G will find RNG a rapidly growing market that leverage their skill sets,” stated Tom Gellrich, CEO and Founder, H2-CCS Network. “We are just at the start of the RNG build out, there are years of growth ahead,” Gellrich added.

The Appalachian RNG Conference will provide attendees with the latest and best information on

RNG developments from nationally recognized RNG experts – Virginia Weis, Renewable Energy Program Advisor, Dominion Energy, Gus Simmon, CIO, Director of Bioenergy, Cavanaugh & Associates, Ken Thompson, Founder and President, Valtronics/Mustang Sampling, and Dave Lindenmuth, Managing Director, Renewable Natural Gas Services, EcoEngineers.
