□ (For Reference) Outline of "Earth Scroll" Attraction Renewal

The renewed attraction will feature an original storyline exclusive to Nijigen no Mori. Participants must lend their strength to their ninja village comrades as they battle enemies in the "Cave of Legends". However, the only way to reach the cave is by gathering a number of seal stamps hidden around Shinobi-Zato.

The stamps can be obtained from 12 spots within the area. A new feature introduced to the attraction will be the "ninja experience spots" which use digital technology to read hand movements. By correctly performing hand seals in front of the monitors at these spots, participants can activate a variety of ninja techniques and obtain the stamps needed for the mission. This interactive feature also allows visitors to feel even more immersed in the world of Naruto.
