

Superior Construction Services Crowned 2024 PRO Remodeler of the Year for Residential Interior

Superior Construction secures PRO Remodeler of the Year for transformative interior redesign under \$250k in DC

WASHINGTON, DC, UNITED STATES, March 6, 2024 /EINPresswire.com/ -- The Professional Remodeling Organization (PRO) Metro DC named [Superior Construction Services](#), in Washington, DC, as a PRO Remodeler of the Year winner in the Residential Interior Under \$250,000 category of its annual awards competition at their PRO Remodeler of the Year Awards Gala on Saturday, February 3, 2024 at the DoubleTree by Hilton, Gaithersburg, MD.

When asked about being the recipient of this award, Superior Construction Services' president Daniel Steinkoler said that it is an honor to have been selected and recognized alongside so many other incredible remodelers. He also expressed gratitude for his team and their hard work on the project.

Winners of the PRO Remodeler of the Year Awards represent the best remodeling work in the Metro DC area. The Awards, judged by remodeling professionals outside of the area, are based on problem-solving, functionality, aesthetics, craftsmanship, innovation, and degree of difficulty.

Superior Construction Services was recognized for their impressive work on their [residential interior remodel](#) project under \$250,000. They executed a complete overhaul of a home's interior, including the kitchen, basement stairway, entrance, and powder room. When Superior Construction Services first evaluated the home, they noticed that it had an outdated

kitchen with insufficient natural light and poor ventilation. They also saw safety concerns with the basement staircase and a lack of functionality in the entryway and powder room.

The team got right to work, introducing traditional elements and increasing the functionality of all spaces, resulting in elevated spaces that delivered comfort, safety, and style. They specifically focused on opening up the kitchen, expanding it by 8 square feet to allow for additional storage, and reconfiguring the ventilation system to

create a safer and more pleasant cooking environment. They redesigned and rebuilt the basement stairs to bring them up to code while also developing a more child-friendly entrance and revamping the powder room to make it more modern.
