

IPT Carbon Solutions to Showcase Expertise at 2024 CCUS Conference

GOLDEN, CO, UNITED STATES, March 6, 2024 /EINPresswire.com/ -- [IPT Carbon Solutions](#), a leader in innovative energy solutions, is proud to announce its participation in the upcoming [2024 CCUS Conference](#). This event, a pivotal gathering for professionals in carbon capture, utilization, and storage, will feature IPT Carbon Solutions' CEO, Dave Mannon, and Drilling Manager, Jim Jacobsen, among its distinguished participants.

Dave Mannon is set to contribute his vast industry knowledge on a panel discussion titled "Challenges Across CCUS Value Chain." Scheduled for Tuesday, March 12, from 10:55 to 12:00, this session promises to offer invaluable insights into overcoming the intricate challenges facing the CCUS sector today.

“

Participating in the CCUS Conference allows us to showcase how IPT Carbon Solutions is navigating the complexities of carbon capture and storage with innovative and practical solutions”

Jim Jacobsen, Drilling Manager, IPT Carbon Solutions

In addition to Mannon's involvement, Jim Jacobsen will participate in the poster session, presenting a compelling case study on "Engineering and Drilling Colorado's First CCS Stratigraphic Well." This presentation will outline the meticulous engineering design, drilling mud design, and execution strategies that led to a successful project with zero incidents, showcasing IPT Carbon Solutions' commitment to safety, efficiency, and environmental stewardship.

"Participating in the CCUS Conference allows us to showcase how IPT Carbon Solutions is navigating the

complexities of carbon capture and storage with innovative and practical solutions," commented Jacobsen. "Our contribution through the poster session is a glimpse into the cutting-edge approaches we are employing to tackle the industry's most pressing challenges. It's about pushing boundaries, sharing our successes, and learning from the global community to foster a

sustainable energy future."

The participation of IPT Carbon Solutions' experts at this conference underscores their dedication to advancing the CCUS field. It highlights their ongoing efforts to develop sustainable energy solutions that address today's environmental challenges.
