Coming off the major success of the winter program, the Amalfi Foundation announced that they launched the Spring SLA program, which will run from March until mid-May. New student teams will compete to fundraise the largest amount before the final May 18th celebration.

“We are excited to welcome a team of bright students and equip them with professional development tools and real-world networking experience,” Sarnoff said.

Winners of the winter SLA program were awarded scholarships ranging from \$5,000-\$15,000 for their college pursuits. The Amalfi Foundation hopes that the experiences students have in the program provide a meaningful stepping-stone into further charitable and educational endeavors.

“We are thrilled to give back to these students who have given so much to the program over the last quarter,” Sarnoff said. “Further, we are delighted to welcome a new spring class and see their growth over the coming months.”

The Local Community Development Initiative (LCDI) Program works with local homeless shelters to receive currently unhoused individuals and puts them through a 6-month accelerator program in which our non-profit covers all expenses, provides housing for the next 6-months, and provides career consultants, financial advisors, and an AF Case Manager to assist the Candidate through the program. The intent is that by providing funding for trade school, certifications, etc. we will assist our Candidates to get a job within 6 months and become self-

sufficient going forward.

The Amalfi Primary School is a future planned school to be built in Arusha, Tanzania, and supports the Maasai Tribe. Currently, the local tribe is over 5 kilometers away from the nearest school and the village does not have reliable roads or methods of transportation, therefore most of the villagers would never be properly educated. Therefore, by breaking ground on our Primary School in 2024, we will be able to provide this community with a clear path to a secure education.
