the awards. The top three beers by average Untappd rating in 2023 in all 50 U.S. states and Washington, D.C. as well as 50 countries around the world were recognized for up to 268 beer substyles in each geography.

“We want to use the Untappd Community Awards to thank, recognize, and celebrate breweries globally. Countless breweries all around the world brew amazing beer, and we felt we were overdue in highlighting the best beers across all styles, not just those that garner stratospheric average

ratings,” said Kyle Roderick, Chief Product Officer at Next Glass, Untappd’s parent company.

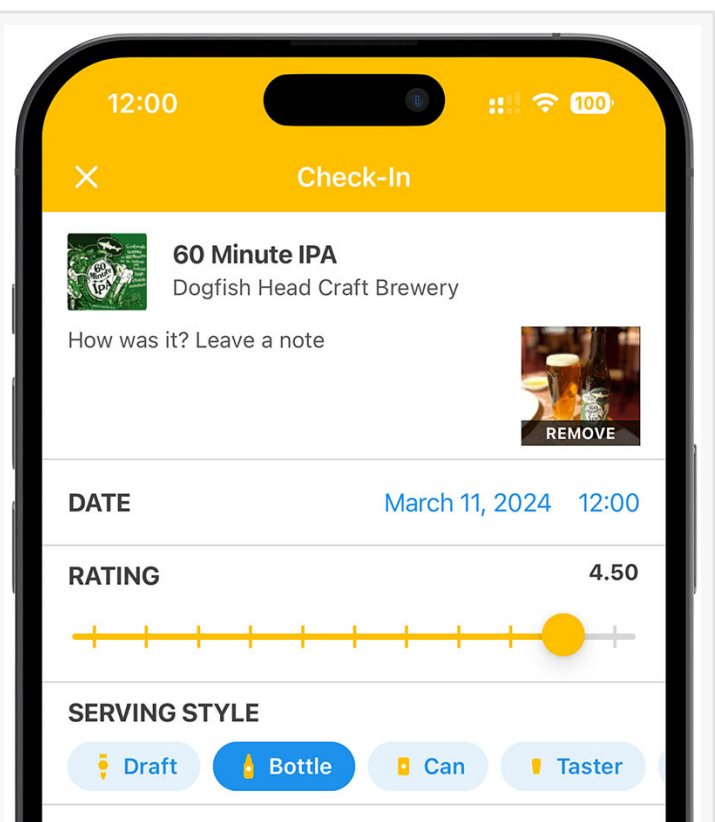

“While there are plenty of awards to go around for various IPA and Stout substyles, the Untappd Community Awards will recognize annually the very best beers among all styles. In doing so, we honor a broad array of incredible beers from all around the world that our amazing user community regards as best-in-class.”

In the United States, 3,719 breweries brewed a beer winning an Untappd Community Award in at least one style at the national or state level. The 10 U.S. breweries that produced the highest number of award-winning brews at a state or national level include Tree House Brewing Company, Sapwood Cellars Brewery, Dogfish Head Craft Brewery, Hill Farmstead Brewery, Schilling Beer Co., Barrique Brewing and Blending, Anchorage Brewing Company, Wren House Brewing Company, Fox Farm Brewery, and The Veil Brewing Co.

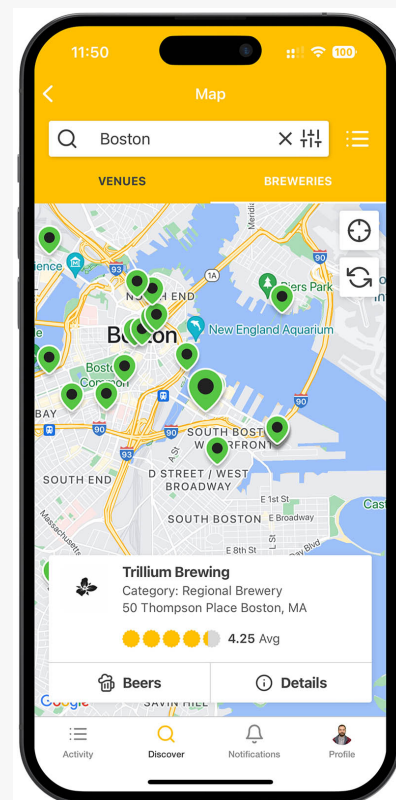

"All of us at Dogfish Head are super proud to be in the top three in the U.S. alongside the great folks at breweries like Tree House and Sapwood! It is so cool to see so many of our other favorite breweries win awards as well," said Sam Calagione, Brewer & Founder of Dogfish Head. He continued, "29 years into making off-centered ales for off-centered people, it is heart-warming to know the people we make them for appreciate the passion and creativity we put into this work every day! We are proud to be part of the vibrant Untappd community."

To qualify, beers had to receive a minimum of 50 ratings from unique Untappd users in 2023. Award winners were selected for substyles in all geographies in which at least three products in the substyle qualified with 50 unique ratings. Untappd's 11 million users globally have logged over 1.3 billion beer check-ins since 2010, with the majority of check-ins including ratings. While fewer than 1.65% of over 1.5 million beers rated in 2023 received an award, nearly 30% of breweries worldwide produced an award-winning beer.

The highest-rated beer in the United States in 2023 was Double Barrel Derivation (Double Willett Double Vanilla 2022), an Imperial/Double Stout from Side Project
