

Infrastructure and Facilities Safety: A Story of Mobile Data-Driven Dam Safety

MB&A in partnership with SMX and Carahsoft announces the "Mobile Data-Driven Dam Safety" webinar to take place Tuesday, August 27, 2024 2:00 pm ET.

MCLEAN, VA, USA, August 20, 2024 /EINPresswire.com/ -- MB&A in partnership with SMX and Carahsoft announces the "[Mobile Data-Driven Dam Safety](#)" webinar to take place Tuesday, August 27, 2024

2:00 pm ET. This webinar explores innovative approaches to dam safety that blend efficiency with cutting-edge data analytics and enhanced customer experiences. Learn how digital modernization is revolutionizing dam operations, ensuring facility safety and efficiency.

“

Join us as we unpackage a solution that is helping one of the largest dams in the country tackle maintenance and compliance challenges through digital innovation”

Hunter Cronier, MB&A

[Join us](#) to discover how the [Grand Coulee](#) Dam tackled its maintenance and compliance challenges through digital innovation. MB&A, in collaboration with SMX, deployed the ExAM platform to deliver a comprehensive solution for activity visibility and real-time compliance reporting.

This modernization initiative resulted in substantial time savings and supported rigorous adherence to regulatory standards, ultimately ensuring a stable power supply for

millions of homes. Explore how this advancement has reinforced operational efficiency and regulatory compliance for a critical infrastructure asset.

Key Takeaways:

Digital Modernization: Cutting-edge tools in dam safety management are revolutionizing the way we monitor and maintain these critical infrastructures. These innovations enhance efficiency, accuracy, and responsiveness, setting new standards for safety protocols.

Mobile Dam Safety: Mobility in dam safety is crucial for protecting the environment and ensuring
