>> Towards the development of the firm, a crucial step was taken in 2023.

>> The firm understood that the impacts and challenges the clients face could be overwhelming, even though the alleged offending may seem simple.

>> On this matter, along with Brook, David had taken great pleasure in re-developing their style of advocate approach particularly in traffic matters.

>> This proactive approach helped them to focus on collaboratively navigating these challenges to determine the most effective path forward.

#### Prominent Victories:

In the accomplishment of 2023, paramount was the victories they took pride in. During the past year, David and his team have had many successful cases. Out of which, David highlights a couple of case studies.

##### >> Case #1:

"We have had some terrific successes in 2023 with matters of speeding," stated David. In one instance, he explained how a client faced charges of speeding. However, it was discovered that there was an issue with the use of the speeding device. With David's team's thorough examination and best efforts, it came to light that police members' training versus their use of the device on the day in question did not align, which ultimately led to the failure of the charge.

##### >> Case #2:

David recounted another incident. It was an examination of speeding through road works, where again the police members' assertions as to the requirements on the driver where they (driver) were detected, was erroneous leading to the charge being withdrawn.

Besides many successful cases, at present, the firm is actively handling several cases where the issues of road work speed reduction are being closely examined.

#### Outlook for 2024:

As David Tamanika Solicitors enters 2024, they look forward to continuing their momentum 2024, with a focus on serving clients and achieving positive outcomes in their cases.

David said, "We continue to move forward in 2024 with many cases where the clients have placed their trust in the office, which we are very grateful for and are determined not to let them down!"
