

# NuScienta Launches Government AI Literacy Program in Washington D.C.

*AI Leadership Literacy: Transforming Public Service for the Digital Age*

WASHINGTON, DC, UNITED STATES, March 7, 2024 /EINPresswire.com/ -- NuScienta, a leading Data and AI literacy education and training platform created by Data Products LLC, today announced the launch of its Government AI Literacy Program, kicking off with the AI Literacy Leadership Series 2024 in Washington D.C. This program marks a significant expansion for Data Products LLC into the government sector and the Washington D.C. area.

Program alignment with President Biden's Executive Order

The AI Literacy Leadership Series aligns with President Biden's recent Executive Order on Safe, Secure, and Trustworthy Artificial Intelligence, emphasizing responsible and ethical development and deployment of AI technologies.

Equipping Government Leaders for the AI Era

The AI Literacy Leadership Series is designed to empower government leaders with the knowledge and tools needed to responsibly integrate Artificial Intelligence (AI) into their operations. This exclusive workshop series offers:

- Expert-led sessions: Gain insights from leading AI professionals on ethical AI governance, strategic AI planning, and workforce upskilling for the AI-powered future.
- Interactive discussions: Engage in collaborative learning to address challenges and opportunities specific to the government sector.
- Real-world case studies: Explore practical applications of AI in government operations and

glean valuable knowledge from successful implementations.

#### Workshop Focus Areas:

- Crafting effective AI strategies within government frameworks.
- Assessing organizational readiness for AI implementation.
- Selecting strategic AI partners aligned with ethical standards.

#### Data Products LLC's Commitment to Government Sector

Through the launch of the Government AI Literacy Program and its expansion into Washington D.C., Data Products LLC demonstrates its ongoing commitment to empowering government agencies with the knowledge and skills needed to harness the power of AI for positive public impact.

#### Event Details:

Date: April 18th, 2024

Location: Washington, D.C.
