"We are very excited to launch TruckingTowerLeads.com to help companies that sell products and services into trucking fleets. We recognized a key gap in the market for accessing the right data and helping our clients save time and money in gathering accurate executive contact details and locations".
- Andy Hedrick, CEO - TruckingTower.com

This SaaS platform is another solution offered by Trucking Tower to help clients with sales growth and operating cost reductions. Andy Hedrick, CEO said "this solution is a culmination of 29 years of working with trucking and supply chain technology companies who want to help fleets with operating cost reductions and new capabilities, but they struggle with how to reach the right executives. We also help our clients utilize value-attraction content and sales automation which aligns with how executives evaluate solutions and buy today."

You could spend $30,000+ on various lead list downloads and over 300 manual hours trying to scrub and compile the right information for executives. But, doesn't that seem like a big waste of time and money?

We provide breakthrough capabilities for sales and business-planning operations. To continue providing even more value, we constantly add more executives to the Trucking Tower Leads database. We also offer other sales growth and custom research services. The Trucking Tower Leads solution provides trucking fleet data not previously available.

Our solution is designed for companies that need to research and reach executives with fleets of trucks and includes: Number of Engines, Contact Name, Contact Title, City, State, Zip, Contact Email, Contact Phone, and Contact LinkedIn URL. Below is a list of our current offerings to help your company
