What Steve AI 2.0 Can Do for You?

Steve AI 2.0 takes the platform to a whole new level, introducing features that will revolutionize your video creation experience.

Here is the list of new features:

Text to GenAI Video

The world's first AI engine that converts text prompts into captivating videos. Simply type in your message, and witness AI change it into an impressive video. You have the freedom to choose from a variety of video styles, including 3D, Anime, or Pixel Art, and fine-tune the settings to match your preferences.

AI Voice-to-Video

With Steve's AI Voice to Video, breathe new life into your audio content. Upload your voiceover or podcast, and let the AI create a video that syncs seamlessly with the audio.

Repurposing Brilliance

Repurpose your existing content by giving it a fresh twist. Transform your ideas into captivating videos tailor-made for social media and other platforms. With repurposing, you'll effortlessly create more content while captivating your audience.

Animated Talking Head Videos

Meet AI TalkingHead videos—the most realistic and expressive avatars that speak your words. Gone are the days of dull, static headshots. Steve AI 2.0 leverages AI technology to animate avatars from various angles, perfectly syncing their movements with your message.

Video Exports & App Performance

Steve AI now offers 3X faster exports and has fixed over 100 bugs, resulting in an app performance that's 2X better. Get ready to create and share your masterpieces effortlessly!
