

# Oxygen Barrier Films and Coatings for Dry Food Market is anticipated to grow USD 1744.34 million in 2030

Global Oxygen Barrier Films and Coatings for Dry Food Market include Amcor, Bemis, American Pouch, Dupont Teijin Films

LUTON, BEDFORDSHIRE, UNITED KINGDOM, March 8, 2024

/EINPresswire.com/ -- The Global [Oxygen Barrier Films and Coatings for Dry Food](#) Market report focuses on a comprehensive analysis of the recent and future prospects of the Oxygen Barrier Films and Coatings for Dry Food industry. An in-depth analysis of historical trends, future trends, industry advancements, and regulatory requirements of the Oxygen Barrier Films and Coatings for Dry Food has been conducted to analyze the growth rate of each segment and sub-segment. Highlighting the major drivers and restraints in this industry, the report also provides a complete study of future trends and improvements in

“

High demand for oxygen barrier films & coatings in the dry food market due to prolonged shelf life & preservation of product quality.”

Manufacturers and consumers alike seek packaging solutions that can prolong the shelf life of dry food products. Oxygen barrier films and coatings help prevent oxygen from reaching the food, thereby reducing the rate of oxidation and spoilage, and extending the product's shelf life.

Oxygen barrier films and coatings help prevent oxygen from reaching the food, thereby reducing the rate of oxidation and spoilage, and extending the product's shelf life.

The dry food industry encompasses a wide range of products, including snacks, cereals, baking mixes, and pet foods. As this industry continues to grow globally, there is a corresponding increase in the demand for effective packaging solutions to maintain product freshness and quality.

Consumers are increasingly opting for dry food products due to their convenience and longer shelf life compared to fresh foods. Oxygen barrier packaging ensures that these products remain fresh, flavorful, and safe for consumption over an extended period, catering to consumer preferences.

Stringent regulations and food safety standards mandate the use of packaging materials that preserve food quality and safety throughout the supply chain. Oxygen barrier films and coatings play a vital role in meeting these requirements by minimizing the risk of spoilage, contamination, and deterioration of dry food products.

Ongoing innovations in packaging technology have led to the development of advanced oxygen barrier materials with improved barrier properties, durability, and cost-effectiveness. These innovations drive the adoption of oxygen barrier films and coatings as preferred packaging solutions for dry food products.

With increasing awareness of environmental issues, there is a growing demand for sustainable packaging solutions that minimize waste and reduce environmental impact. Oxygen barrier films and coatings can contribute to sustainability efforts by extending the shelf life of dry food products, thereby reducing food waste and the need for additional packaging materials.

Oxygen barrier films and coatings help prevent oxygen from reaching the food, thereby reducing the rate of oxidation and spoilage, and extending the product's shelf life.

Oxygen barrier films and coatings help prevent oxygen from reaching the food, thereby reducing the rate of oxidation and spoilage, and extending the product's shelf life.

The research study includes the current trends that are being adopted by significant market players in the Oxygen Barrier Films and Coatings for Dry Food markets, including the use of cutting-edge technology, government funding of R&D, and an increasing focus on sustainability.

Amtcor, Bemis, American Pouch, Dupont Teijin Films, and Honeywell

Market Segmentation:

The market is segmented based on the type, product and application. The segmentation helps to deliver a precise explanation of the market.

Segments Covered in the Oxygen Barrier Films and Coatings for Dry Food Market Report:

Oxygen Barrier Films And Coatings For Dry Food Industry By Material, 2020-2029, (USD Million) (Kilotons)

Metallized

Transparent

PVDC

EVOH

Oxygen Barrier Films And Coatings For Dry Food Industry By Packaging Type, 2020-2029, (USD Million) (Kilotons)

Pouches & Bags

Lid Stock

Wraps

Oxygen Barrier Films And Coatings For Dry Food Industry By Application, 2020-2029, (USD Million) (Kilotons)

Baked Goods

Confectionary

Savory Snacks

Rice

Pasta

Noodles

Breakfast Cereals

Oxygen Barrier Films And Coatings For Dry Food Industry By Region, 2020-2029, (USD Million)  
(Kilotons)

North America

Europe

Asia Pacific

South America

Middle East And Africa

Important Countries In All Regions Are Covered.
