

# Uplers Launches Compensation Analysis Tool For Hiring Managers

*Uplers' interactive and feature-loaded comparative compensation analysis tool enables you to gain a understanding of the global salary market when hiring.*

SAN DIEGO, CALIFORNIA, UNITED STATES, March 8, 2024 /EINPresswire.com/ -- Major layoffs and margin pressures have compelled hiring decision-makers to take the right measures, especially concerning pay equity. With this tool, decision-makers can analyze their entire compensation plan online, swiftly and at any time, 24/7.

By leveraging analytics and a robust dataset, users gain unrestricted access to reliable and accurate information derived from over 10,000 organizations, encompassing 10 million employees and spanning major countries. Moreover, all analyses are grounded in cutting-edge data refreshed multiple times per year. With this information, companies can compare not just skills-wise salaries but also evaluate potential savings on benefits, insurance, and perks when hiring from India compared to hiring from their location.

Key components of the [compensation analysis](#) tool are:

1. Incorporates dynamic datasets to offer an in-depth analysis of salary benchmarks across various roles and industries.
2. Hiring managers can conduct a thorough compensation analysis to get cost-effective and fine-rated Indian remote talent.
3. With this, hiring managers can also create their own customized job descriptions through JDPro (a feature in the compensation analysis tool)- JDPro aids 4. in making well-informed decisions on salary, skills, and priorities. This tool allows users to access similar talent profiles from Uplers' talent network, aligning seamlessly with the JD estimation search.

Uplers' compensation analysis tool, complemented by comparative data on salaries and features like JDPro, empowers decision-makers to make informed decisions throughout their hiring processes. Taking it a step further, the tool offers talent profiles based on the searches, ensuring hiring managers receive profiles tailored to their searches from the AI-screened, pre-vetted talent network.
