Mint Fusion and Peanut Butter and Bacon varieties are the latest addition to the company's proven and trusted oral health pet treat product line. A pet with healthy teeth leads to a pet with overall better health.

Swedencare Dental Bones

Swedencare's line of PlaqueOff dental bones was developed to provide pet owners with a simple and tasty way to help promote optimal dental health in their dogs. Uniquely shaped to provide abrasive action, the dental bones help to decrease plaque and tartar while also freshening breath. Made in the USA, PlaqueOff dog treats are grain free, gluten free, soy free and made with natural ingredients.

Joining the product's original varieties are two new additions.
