The Schulte Roofing Team

Since its founding in 1995, Schulte Roofing has continued to be a trusted name in the roofing industry, serving residential, commercial, solar, and industrial clients across Texas. The recently expanded in to the [San Antonio roofing](#) market, Schulte Roofing has created a standard of quality that has endured since then, earning it multiple awards and recognition as one of the most reputable contractors in the region.

The BBB A+ accreditation was created to encourage high quality customer service and consistent and responsive business practices. As one of the largest and most respectable organizations in America, recognition through their accreditation system is a goal for many businesses. The BBB bases their scoring on a process of 13 different types of elements, including complaint response, type of business, time of business, and transparent business practices. To achieve A+ accreditation, a business must score highly on each of the criteria. Schulte Roofing has maintained their A+ accreditation since 2023, and this latest milestone solidifies the roofing company as honest, transparent, and reliable.

“We’re incredibly proud to have held our A+ accreditation since 2003, and now we’re thrilled that it has expanded to all of our locations,” said Schulte Roofing in their official blog post. “We couldn't have done it without our Schulte Roofing team members and clients’ incredible support. Thank you for trusting us with your roofing service needs.”

Schulte Roofing's A+ accreditation with the BBB is a testament to their "commitment to excellence" philosophy. The roofing contractor company looks forward to continuing to serve its customers with the same level of professionalism and expertise that have earned them this reward.
