

# Impakt IQ, Leading Provider Of Sustainable Impact Solutions, And Viision, A Leader In Blockchain Announce Collaboration

*Impakt IQ, a Leading Sustainable Impact Intelligence Solution, And Viision, A Leader in Blockchain Technology Announce Collaborative Partnership*

NAPA, CALIFORNIA, USA, March 11, 2024 /EINPresswire.com/ -- [Impakt IQ](#) and [Viision](#) are pleased to announce they have entered into a strategic partnership. This collaboration brings forth the next-generation solution for companies to measure and manage their sustainable impacts throughout the business value chain; it is investor-grade, aligns with global sustainability regulations, such as SEC, CSRD, and IFRS Sustainability Standards (International Financial Reporting Standards).

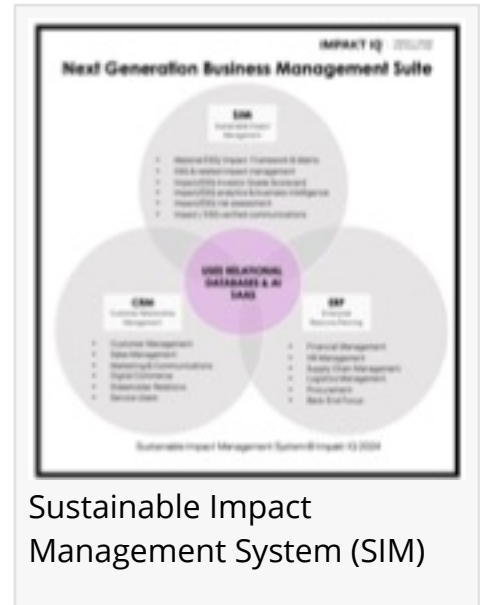

The next-generation business management system is “Sustainable Impact Management” (SIM). SIM, when overlaid on existing management systems, adds the third-dimensional insight required to reveal holistic, sustainable impact practices (risks and value creation). When SIM, ERP, and CRM systems share relational databases, they provide full holistic business intelligence – the next generation in business management systems.

“Our collaboration with Viision will empower SIM. Integrating our solutions simplifies investor-grade sustainable impact management compliance, minimizes risk, and helps companies align with rigid stakeholder expectations—all components critical to gaining access to required elements of commerce today, such as financing, customers, and consumers,” said Elisa Turner, Founder and CEO of Impakt IQ.

This partnership is a game-changer for businesses seeking comprehensive supply chain insight and effortless compliance,” said Amanda Martinez, CEO at Viision.

Impakt IQ and Viision are committed to driving transformative solutions that align corporate responsibility, sustainable impact and financial success.
