EXACTITUDE CONSULTANCY Market Size Market expansion is being hampered by stringent government regulations and rising raw Market is expected to grow faster material costs. The restriction on antibiotics in animal feed in the United States and Europe further limits industry expansion 59.39 Billion 2029 5.43% The expanding number of feed mills and manufacturing enterprises is propelling the industry forward. Manufacturers are also combining chemicals with feed to improve quality and extend shelf life. As a result of these the demand for feed additive is expected to rise The increasing demand for protein-rich animal-based products, expanding awareness of animal health and development, and the use and advantages of feed additives among livestock 41% Asia Pacific ADISSEO **I**nutreco invivo: Cargill Feed Additives Market

Consultancy is an in-depth analysis of <u>Feed Additives</u> Market This research reports provides insights on current and future industry trends, enabling readers to identify products and services, driving revenue growth and profitability. This research report provides a detailed analysis of all key factors influencing the market on a global and regional scale, including drivers,

Rising global demand for quality animal nutrition drives the Feed Additives Market, with a focus on enhancing animal health, performance, and productivity."

Exactitude Consultancy

restraints, threats, challenges, opportunities, and industry-specific trends. Additionally, the report cites global certainties and assurances along with downstream and upstream analysis of key players. The forecast market information, SWOT and PESTEL analysis, market scenario, and Sales forecasts are conducted by Porter 5 force and possibility study are the energetic aspects evaluated in this report. The research report presents a 2022 base year and forecasts between 2024 and 2030.

The global feed additives market size was valued at USD

36.9 billion in 2023, and projected to reach USD 59.39 billion by 2030, with a CAGR of 5.43% from 2024 to 2030.

The Asia-Pacific region is predicted to have the largest market share, estimated at around 41%, with a CAGR of 6.8%. This is owing to rising demand for animal-based goods and the expansion of the animal husbandry sector in nations like China, India, and Japan. Also, a few nations in the Asia-Pacific area have large populations, and the population in this region is growing increasingly concerned about health and is more inclined to consume an animal-based protein diet.

Over the forecast period, North America is estimated to lead the market. People in North America are health-conscious and have a lot of discretionary cash, therefore the demand for animal-based goods is strong since they are a good source of protein. Europe also has a high growth rate throughout the forecast period, owing to severe rules governing animal health and sanitary meat products, which are important drivers of the feed additive market.

Growing Demand for Advanced Feed Additives Driven by Evolving Livestock Nutrition Practices

The Feed Additives Market is experiencing a surge in demand due to the increasing focus on optimizing livestock nutrition and health. As the global population grows, there is a rising need for efficient and sustainable animal husbandry practices to meet the growing demand for high-quality animal products. Feed additives, including vitamins, amino acids, enzymes, and probiotics, play a crucial role in enhancing animal growth, improving feed efficiency, and ensuring overall well-being. Consumers are increasingly aware of the impact of nutrition on animal products, leading to a heightened demand for specialized feed additives that address specific health and performance concerns. This trend is further fueled by the livestock industry's shift towards sustainable and eco-friendly practices, driving the adoption of innovative feed

additives that support both animal welfare and environmental conservation. The Feed Additives Market is poised for continued growth as stakeholders prioritize advanced solutions to meet the evolving demands of modern agriculture and ensure a sustainable and efficient food supply chain.

- Feed Additives Market Report Overview: It includes major players of the market covered in the research study, research scope, market segments by type, market segments by application, years considered for the research study, and objectives of the report.
- Global Growth Trends: This section focuses on industry trends where market drivers and top market trends are shed light upon. It also provides growth rates of key producers operating in the market. Furthermore, it offers production and capacity analysis where marketing pricing trends, capacity, production, and production value of the market are discussed.
- Feed Additives Market Share by Manufacturers: Here, the report provides details about revenue by manufacturers, production and capacity by manufacturers, price by manufacturers, expansion plans, mergers and acquisitions, and products, market entry dates, distribution, and market areas of key manufacturers.
- Feed Additives Market Size by Type: This section concentrates on product type segments where production value market share, price, and production market share by product type are discussed.
- Feed Additives Market Size by Application: Besides an overview of the market by application, it gives a study on the consumption in the market by application.
- Feed Additives Market Production by Region: Here, the production value growth rate, production growth rate, import and export, and key players of each regional market are provided.
- Feed Additives Market Consumption by Region: This section provides information on the consumption in each regional market studied in the report. The consumption is discussed on the basis of country, application, and product type.
- Company Profiles: Almost all leading players of the market are profiled in this section. The analysts have provided information about their recent developments in the market, products, revenue, production, business, and company.
- Feed Additives Market Forecast by Production: The production and production value forecasts included in this section are for the market as well as for key regional markets.

- Feed Additives Market Forecast by Consumption: The consumption and consumption value forecasts included in this section are for the market as well as for key regional markets.
- Value Chain and Sales Analysis: It deeply analyzes customers, distributors, sales channels, and the value chain of the market.
- Key Findings: This section gives a quick look at the important findings of the research study.
