The market for craniomaxillofacial implants in North America held the largest market share globally in 2022. During the forecast period, the North American regional market is expected to expand at a promising CAGR. The rise in the frequency of facial fractures and injuries, the rise in the number of accidents that occur in North American nations, and the presence of significant market players are all factors contributing to the growth of the North American market.

The market for craniomaxillofacial implants in APAC is anticipated to grow at the fastest rate over the course of the forecast. The market for craniomaxillofacial implants in the Asia-Pacific region is primarily driven by the rising popularity of medical tourism and the expansion of accessible, reasonably priced medical care in nations like India, Thailand, and Malaysia.
