

New Jersey Orthodontist Announces New Basking Ridge Office Remodel

Dr. Kenneth Banasiak unveils an updated remodel for the Basking Ridge office of Banasiak & Nettune Orthodontic Associates.

BASKING RIDGE, NJ, USA, March 12, 2024 /EINPresswire.com/ -- Dr. Kenneth Banasiak, a [board-certified orthodontist in New Jersey](#), and the team at Banasiak & Nettune Orthodontic Associates are happy to announce the remodel of their Basking Ridge office. According to Dr. Banasiak: "It's a state-of-the-art facility now as far as what [the remodel] has done. It really is." He notes that, while the practice has had a few "facelifts" over the years, they wanted to give it a more thorough upgrade and a comprehensive, wall to wall renovation.

The latest additions to the office include two consultation rooms, a coffee bar, and TV monitors. Additionally, new CBCT (cone beam computed tomography) and iTero® technologies available at the practice enable the team to provide incredibly detailed imagery of a patient's oral structures, as well as precise digital teeth impressions for treatments such as [Invisalign®](#) and retainers after [braces](#). Dr. Banasiak explains that these technologies add to the vast selection of advanced diagnostic and treatment modalities at the Basking Ridge office and make it one of the only fully "3-D" orthodontic practices in the area. Regarding how the office looked before the remodel, Dr. Banasiak says, "I don't think the appearance reflected how advanced we are, so I wanted to make sure that we were on the same level as that."

One of the highest priorities for the remodel was to create a comfortable experience and environment for the patient. Dr. Banasiak notes that, ultimately, he wanted the practice's

upgrades to reflect that commitment, along with a continued dedication to providing patients with the highest quality of care.

About Kenneth Banasiak, MD

Dr. Kenneth Banasiak is a board-certified orthodontist in Basking Ridge and Mendham, New Jersey who is focused on remaining at the forefront of his field.
