

ANY.RUN Sandbox Integrates with OpenCTI Platform to Streamline Threat Intelligence Collection

DUBAI, UNITED ARAB EMIRATES, March 11, 2024 /EINPresswire.com/ -- [ANY.RUN](#), a leading provider of a dynamic malware analysis sandbox, introduces its integration with OpenCTI, an open-source Cyber Threat Intelligence (CTI) platform.

ANY.RUN's integration with OpenCTI gives security professionals a powerful combination of dynamic malware analysis and centralized threat analytics management.

Key features of the integration include:

- **Seamless integration:** Security analysts can seamlessly leverage ANY.RUN's dynamic malware analysis capabilities on the OpenCTI platform, enabling swift and comprehensive threat analysis.
- **Enhanced visibility:** By consolidating threat intelligence from various sources, including ANY.RUN's dynamic analysis reports, OpenCTI offers enhanced visibility into emerging threats, enabling proactive threat mitigation strategies.
- **Streamlined collaboration:** The integration facilitates seamless collaboration among security teams by centralizing threat intelligence and analysis data within a unified platform, fostering more efficient incident response and threat hunting workflows.
- **Scalable operations:** Organizations can scale their security operations effectively by harnessing the combined capabilities of ANY.RUN and OpenCTI to identify, analyze, and

respond to cyber threats rapidly.

The integration between ANY.RUN and OpenCTI underscores both organizations' commitment to advancing cybersecurity capabilities and fostering collaboration within the security community. Together, they strive to provide security professionals with the resources they need to effectively mitigate risk and protect against evolving cyber threats.

For more information about ANY.RUN integration with OpenCTI, read [this blog post](#).
