

# Virtue Solar's 25-Year Service Warranty Raises the Bar in Virginia

*Solar panel maintenance warranty considered one of the strongest in the industry.*

CHARLOTTESVILLE, VA, UNITED STATES,  
March 11, 2024 /EINPresswire.com/ --  
Central Virginia's top-rated local solar  
provider, [Virtue Solar](#), recently

announced it would offer a 25-year service warranty to run in conjunction with its existing 25-year warranties on solar panels, racking, and microinverters. This coverage is considered one of the strongest warranties in the industry, ensuring that solar panel systems perform as intended for the life of the system.

“

Our customers come to us because they've done their homework. They know we offer outstanding quality and value. But this warranty helps give them total peace of mind when they purchase a solar system.”

*Matt Powers, Virtue Solar  
Founder*

While several of Virtue Solar's competitors offer 25-year warranties on equipment or components, it is uncommon to offer such a duration for maintenance and servicing.

“Our customers come to us because they've done their homework,” states company founder Matt Powers. “They know we offer outstanding quality and value. But this warranty helps give them total peace of mind when they purchase a solar system with us that it will be reliable.”

Headquartered in Charlottesville, Virtue Solar has designed and installed quality commercial and residential solar systems across the state since 2015.

Virtue's superior installation practices and exceptional customer satisfaction scores have been noted in several recent achievements:

-Virtue Solar's promotion to the exclusive Gold Installer tier by Enphase Energy.

-Virtue Solar's certification as an [approved Powerwall Installer by Tesla](#) (making it the only active local solar installation company in the Charlottesville area to achieve such a status).

-Virtue Solar's promotion to "REC Certified Solar Professional" installer by international solar panel leader REC Solar Holdings AS.
