LA JOLLA, CA, USA, March 13, 2024

/EINPresswire.com/ -- When it comes to any plastic surgery procedure, the most important decision made throughout the entire treatment process is selecting the right plastic surgeon to achieve your goals. While no procedure is risk-free, choosing a qualified plastic surgeon can be the most effective way to protect your health, safety, and appearance. With that in mind, those in need of medical care often consult the Top Doctors® list to narrow down their healthcare options. Compiled by Castle Connolly — a physician-led consumer research group — the Top Doctors® database distinguishes top-rated physicians and healthcare providers in a given region based on their education, credentials, levels of patient satisfaction, and reputation within the community. Dr. Scott Miller, a longtime recipient of the Top Doctors® honor, was recently included among the [best plastic surgeons in San Diego](#) for 2024, marking the 20th year in a row he's been recognized.

The Castle Connolly Top Doctors® list is composed for cities all over the country, outlining the top percentage of physicians in their respective specialties for a given region. Based on a combination of peer nomination and evaluation of specific criteria — including professional memberships, training, hospital and faculty appointments, disciplinary history, research leadership, and continuing education — the Top Doctors® database works to highlight leading plastic surgeons in Southern California. Dr. Miller is among the only physicians in the state who has been named a "Top Doctor" since 2004.

Dr. Miller prides himself on providing the La Jolla and wider San Diego community with top-notch
