

McGill Hose & Coupling Attains AS9100D and ISO 9001:2015 Certifications

March 12, 2024 – EAST LONGMEADOW, MA — McGill Hose & Coupling, Inc., a hose fabricator established in 1962, proudly announces the successful achievement of AS9100D and ISO 9001:2015 certifications. These significant milestones reflect the company's commitment to delivering top-notch quality hose assemblies and related products, while adapting to the evolving standards of the hose fabrication and distribution industry.

Under the dynamic leadership of President Alex McGill, McGill Hose & Coupling has undergone a strategic transformation aimed at enhancing operational excellence and customer satisfaction. The AS9100D and ISO 9001:2015 certifications, awarded by TUV SUD America, Inc., acknowledges McGill Hose & Coupling's dedication to quality management systems that meet the stringent criteria set by the International Organization for Standardization (ISO) and the Society of Automotive Engineers /European Association of Aerospace Industries (AS9100D).

These certifications are a testament to McGill Hose & Coupling's continuous improvement efforts to maintain the highest standards in its manufacturing & fabrication processes, quality control, and customer service. This achievement in ISO certification paired with AS9100D certification and adherence to NAHAD Hose Safety Institute (National Association of Hose and Accessories Distribution) guidelines underscores the company's commitment to provide products that adhere to stringent fabrication standards that provide safe and innovative solutions to its customers.

President Alex McGill expressed his pride in the team's collective efforts, stating, "Receiving the AS9100D and ISO 9001:2015 certifications are significant accomplishments for McGill Hose & Coupling. It demonstrates our unwavering commitment to quality, efficiency, and customer satisfaction. I am immensely proud of our dedicated team whose hard work and dedication have made this achievement possible."

The certification process involved a comprehensive audit of McGill Hose & Coupling's quality management system, confirming its alignment with AS9100D and ISO 9001:2015 standards. This recognition positions the company as a leader in the hose fabrication industry, showcasing its ability to consistently meet customer requirements and regulatory expectations.

McGill Hose & Coupling looks forward to leveraging these certifications to further strengthen its position in the market and build enduring partnerships with clients who prioritize quality and reliability in hose fabrication.
