Laser Marking Machine Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

The Business Research Company's "[Laser Marking Machine Global Market Report 2024](#) is a comprehensive source of information that covers every facet of the market. As per TBRC's market forecast, the laser marking machine market size is predicted to reach \$4.15 billion in 2028 at a compound annual growth rate (CAGR) of 8.0%.

The Business Research Company has updated all its market reports with the latest information for the year 2024, projecting trends and forecasts until 2033"

*The Business Research  
Company*

The growth in the laser marking machine market is due to the increasing investment by various governments and funding raised by major players. Asia-Pacific region is expected to hold the largest laser marking machine market share. Major players in the laser marking machine market include Han's Laser Technology Industry Group Co. Ltd., TRUMPF Group, IPG Photonics Corporation, Keyence

Corporation.

## [Laser Marking Machine Market Segments](#)

- By Offering: Hardware, Software, Services
- By Type: Fiber Laser, CO2 Laser, Green Laser, UV Laser, YAG Laser, Other Types
- By Application: Machine Tools, Electronics And Microelectronics, Automotive, Medical, Aerospace, Packaging, Military, Other Applications
- By Geography: The global laser marking machine market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Laser marking refers to a permanent process that uses a beam of concentrated light to create a lasting mark on a surface. It utilizes a concentrated beam of light to leave a permanent mark on a surface. A fiber, pulsed, continuous wave, green, or UV laser system is commonly used for laser marking, and it covers a wide range of applications. Laser marking employs no consumables and requires less maintenance than other non-permanent marking procedures like printing or labeling.
