years of experience, medical license and medical background checks, and a unique and stringent process of analyzing patient reviews from across numerous publicly available sources that must yield a minimum of a 4.2 patient satisfaction rating.

[Dr. Lindsay Allen, MD](#), has earned the 2024 Women's Choice Award Best Doctors designation demonstrating a strong commitment to patients. She strives to enhance her patient's quality of life, providing individualized care for

optimal results. Dr. Allen's philosophy in her practice is based on a collaborative approach between patient and physician in which trust and shared decision-making are key. She cares deeply for her patients and works hard to ensure a positive experience for them within each healthcare encounter.

Dr. Lindsay says, “I consider it a true privilege to care for patients. With this comes a responsibility to provide expert, empathetic, and collaborative care. My goal is each patient having their individual needs met to improve their health and well-being. This approach gives me the ability to not only meet, but hopefully exceed a patient's expectations, and also gives me satisfaction and passion for my profession.”

Delia Passi, Founder of Women's Choice Award and leading consumer advocate for women says, “Women carry the burden of finding the best doctors for her and her family. We have helped millions of women find the Best Hospitals, Mammogram Centers, Breast Centers, and Nursing Homes for a dozen years and it's time we help her find the Best Doctors”.

Earning the Women's Choice Award is particularly challenging as it entails meeting specific

criteria points as indicated in a national survey by women across America. As research shows, women are the chief healthcare officers of the household and have the highest expectations of their providers - as they should.
