

# Adura Introduces New SlimFlex LED Lighting at LEDucation 2024

NEW YORK CITY, NY, USA, March 19, 2024 /EINPresswire.com/ -- [Adura](#), a leading provider of innovative LED lighting solutions, is debuting its new SlimFlex™ LED lighting strips at [LEDucation](#) in New York March 19 and 20. These cutting-edge LED light strips are designed to meet the demands of various lighting applications, offering exceptional performance, energy efficiency and versatility.

The most notable feature of Adura's [SlimFlex](#) is its ability to deliver a Color Rendering Index (CRI) of up to 97 in white light, ensuring superior color accuracy and brightness. Available in single color and multi-color options, SlimFlex offers unparalleled flexibility for designers, architects and lighting professionals.

"Our new SlimFlex LED strips represent a significant advancement in LED lighting technology," said Sumit Tomar, CEO of Adura. "With their high CRI and energy-efficient design, they are perfectly suited for a wide range of applications, including under-cabinet lighting, task lighting, retail displays, photography studios and film sets."

In addition to SlimFlex, Adura is also introducing compatible Constant Voltage LED drivers and controllers, providing a complete solution for seamless installation and control of LED strip lights. These accessories ensure optimal performance and customization options for a range of lighting projects.

LEDucation exhibition attendees can explore the quality and versatility of SlimFlex by visiting Adura's booth # 4920, located in Americas Hall II in the New York Hilton Midtown. The Adura team will demonstrate the new product's capabilities and discuss how it can enhance various applications.
