Out Now Album Cover - Woman Willionaire

About her latest single, "Out Now," Woman Willionaire shares, "It's a very direct and to-the-point song with rhythm, sauce, and sass. It delves into the emotions of feeling unwanted in a relationship, where the other person refuses to be honest and continues to play games. It's a raw expression of frustration, anger, and hurt."

"Out Now" was written, recorded, and produced in a single day, reflecting Woman Willionaire's remarkable creativity and dedication to her craft. Originally intended for inclusion in a larger album project, the decision was made to release it as a standalone single.

The accompanying album cover serves as a visual representation of the emotions conveyed in the song, capturing the turmoil and disillusionment experienced in relationships plagued by denial and deceit.
