

# ASAP Semiconductor Solidifies Commitment to Supplying the USA and Allies with Its Website Aviation Purchasing Platform

*ASAP Semiconductor Solidifies Its Commitment to Supplying the USA and Allies with Top-Quality Parts Through Its Website Aviation Purchasing Platform*

CALIFORNIA, ANAHEIM, UNITED STATES, March 18, 2024

/EINPresswire.com/ -- ASAP

Semiconductor, a renowned purchasing platform for aviation and electronic components, has expanded its efforts to streamline the

procurement of parts for the US and its allies through its website Aviation Purchasing Platform. This innovative online database represents a significant step forward in the company's mission to deliver top-quality parts with the benefit of market-leading pricing and timely fulfillment, the

website's offerings specifically being catered to diverse defense-oriented needs.

“

Our platform streamlines procurement processes for customers to ensure quick access to critical components, all with the benefit of quality assurance and market-leading pricing.”

*Joe Faruqui*

From [Mil-Spec fasteners to NSN parts](#), Aviation Purchasing Platform has been stocked with over 2 billion product listings that meet the strict requirements of numerous industries and applications. With new, used, and obsolete options all being available, customers can find everything they need to support their defense projects. The website itself has also been designed with a user-friendly interface, ensuring ease of access and efficient search processes. For

example, all items are organized into catalogs that are curated by part type, NSN, manufacturer, and more. Furthermore, with a dedicated search feature with provided filters, finding exact needs is made simple.

Aviation Purchasing Platform features various civil aviation and [military marine resources](#) for the benefit of customers. For civil aviation operations, the purchasing platform has a diverse

selection of aircraft hydraulic fittings, maintenance tooling, engine mounts, turbine tool parts, and other components that make the operation and maintenance of aerospace assemblies possible. Meanwhile, for military marine applications, engine, electronic, exhaust system, pump, impeller, and ignition system parts are all available.

Beyond curated catalogs and comprehensive resources, the website also offers an online quote request system, enabling customers to swiftly obtain pricing information and place orders with ease. With a team of dedicated account managers and extended hours of availability, customers can experience quick turnaround times and the efficient handling of inquiries. Furthermore, a specialty of the ASAP Semiconductor team is tracking down long lead-time parts and hard-to-find components, meaning customers can even be treated to purchasing options for items that are not currently listed on the Aviation Purchasing Platform website. Through these services and more, ASAP Semiconductor has established Aviation Purchasing Platform as a comprehensive and reliable resource for the US Department of Defense, allied nations, contract manufacturers, and major air carriers.

As an AS9120B, ISO 9001:2015, and FAA AC 00-56B accredited company, ASAP Semiconductor understands that quality is non-negotiable. As such, it makes great effort to strictly stock Aviation Purchasing Platform with quality-assured items that trace back to vetted manufacturers. Furthermore, varying levels of testing and inspection is carried out for inventory offerings as necessary, while all purchases ship out alongside any applicable qualifying certifications or manufacturing trace documentation as a part of a strict NO CHINA SOURCING pledge. Beyond such practices, the company also upholds various other commitments to ensure that all offerings can be steadily relied on with ease.

In conclusion, Aviation Purchasing Platform marks a significant milestone for ASAP Semiconductor and reinforces its position as a trusted provider of aviation and electronic components. With its comprehensive product range, user-friendly interface, and dedicated customer support, the platform is poised to become a go-to destination for defense-oriented procurement needs. For more information about Aviation Purchasing Platform and its offerings, visit <https://www.aviationpurchasingplatform.com/>.

#### About Aviation Purchasing Platform
