Manchester Center for Rehabilitation and Healing, renowned as an all-encompassing center to rejuvenate and recover, is an integral part of the local community and takes pride in their warm, home-like setting, and compassionate, dedicated team members.

“Our Manchester Center community is a special, special place, and our team of clinicians and interdisciplinary departments care for our residents, patients, and families as if they are our own families,” offered Kristin Thomason, Director of Nursing at Manchester Center for Rehabilitation and Healing.

Manchester’s innovative rehabilitation programs, and compassionate and high caliber levels of genuine care, has secured the center as the ideal healing environment; the uncommon denominator at Manchester Center is that every touchpoint of every experience will not only meet but exceed your expectations.

The transformation of this exceptional skilled nursing and rehabilitation center allows all short-term and long-term residents to rehabilitate, rejuvenate, recover and, in our favorite scenarios, return home happy and healthy.

The community also boasts a partnership with Paralympic Medalists Todd Schaffhauser and Dennis Oehler, who mentor and provide support to those learning to walk again in their signature Comprehensive Amputee Rehabilitation Program.
