Cranford, New Jersey

Maintech, Incorporated, today announces the multi-faceted expansion of its [IT Services](#) portfolio for corporate data centers on the continent under its European affiliate, Maintech Europe Ltd. Maintech began operations in Europe in 2008 supporting the Banking, Financial Services, and Insurance (BFSI) vertical market. This comprehensive expansion program is driven by the accelerating deployment of data centers across Europe by the world's largest corporate enterprises from virtually all vertical markets.

Maintech Europe Ltd Headquarters

“

For 50+ years Maintech has been at the forefront of IT Services delivery to single-source, multi-platform, "5 nines" SLA Data Center environments.”

*Frank D'Alessio President of  
Maintech, Incorporated*

The Maintech services portfolio, which is uniquely tailored for both conventional and hyperscale data center architectures, includes:

(1) A commitment to Maintech Direct Labour and Spare Parts deployed in-country on a global basis to assure responsiveness and Quality of Service.

(2) A commitment to Level 2 technical staff in the data centers to support informed dialogue with end user Operations Teams, System Administrators, and Technology

Planners.

(3) A global array of Network Operations Centers (NOC) to provide customizable system health and server/network performance monitoring, system compliance and cyber security threat detection.

(4) A proprietary ERP system to deliver vendor-neutral “slice and dice” performance reporting and inform plan-to-purchase decisions.

(5) An IT Services governance model empowered by lifelong service professionals.
