A washing machine is an appliance used to wash clothes without any physical effort. The main types of washing machines are fully automatic, semi-automatic and others. A fully automatic washing machine completes the entire clothes washing cycle without any effort from the user. It will rinse, wash, agitate, and spin dry clothes all on its own. When time is up, the user need only retrieve the washed laundry from the machine's basin, and either place it in an automatic dryer or hang it out. The various products of washing machine include automatic, semi-automatic and dryers that are distributed through E-commerce, retail chains and direct sales. The different technologies of washing machine are top load and front load that are used for residential and commercial applications.
