

EARTHRES Appoints Dean Ritts as Director of Environmental Engineering

EARTHRES, a multi-disciplinary engineering consulting firm, expands their leadership team.

PIPERSVILLE, PA, UNITED STATES, March 20, 2024 /EINPresswire.com/ -- EARTHRES, a leader in engineering consulting, announces the addition of Dean Ritts as the Director of Environmental Engineering. With a dynamic and comprehensive professional background spanning over three decades, Dean is recognized for his contributions to industrial wastewater and sustainable engineering and management.

His experience includes managing wastewater from chemical manufacturers, refineries, pharmaceutical manufacturers, metal finishing facilities, hospitals, power plants, plastics plants and leachates from landfills.

Recently, Dean has been working on managing wastewater generated from clean energy projects like converting landfill gas, refinery waste gas and pipeline natural gas to hydrogen for fuel.”

Jan Hutwelker, President/CEO

“Recently, Dean has been working on managing wastewater generated from clean energy projects like converting landfill gas, refinery waste gas and pipeline natural gas to hydrogen for fuel” says Jan Hutwelker, President/CEO. His experience includes managing wastewater from processing of cathode active materials for energy storage, leveraging his unique engineering experience.”

This strategic appointment solidifies EARTHRES reputation for providing cutting edge compliant and cost-efficient engineering solutions.
