Global Buttock Augmentation Market Report 2021-2030
Global Buttock Augmentation Market Report 2021-2030

In 2020, the buttock implants segment dominated the global buttock augmentation market, holding half of the market share, and is expected to continue leading during the forecast period, spurred by the growing aesthetic awareness among individuals. The rise in buttock deformities resulting from aging and unhealthy lifestyles contributes significantly to market growth. Furthermore, the buttock injections segment is anticipated to witness the highest compound annual growth rate (CAGR) of 21.7% from 2021 to 2030, attributed to the less invasive nature of injections compared to traditional surgical procedures.

Global Buttock Augmentation Market Report 2021-2030

In 2020, the hospitals segment held the largest share in the global buttock augmentation market, contributing over two-fifths of the total, and is forecasted to retain its dominant position throughout the projected period. This dominance is due to the extensive support provided by healthcare professionals and experts, enhanced monitoring, and heightened safety protocols. Furthermore, the aesthetic clinics segment is anticipated to exhibit the highest compound annual growth rate (CAGR) of 22.0% from 2021 to 2030.
